Friend Metcalf

I recd your paper in due time. I was happy to hear from you. Hope your health is good as usual.

My object in writing to you is to obtain your assistance in getting a school. I suppose you are some what acquainted in Bangor.

I understand there is a good school on Court Street about a mile from the city. And if you will see what I can do towards getting that or some other good situation I will try satisfy you in some way or other.

I should like as good wages as convenient.

If I can not obtain a school can I get any other good business for this fall & winter?

Will you please see what the prospects are & write as soon as convenient.

No news at all here.

My dear Friend

Your valued favor of the 21st ultimo was duly received. and contents read with pleasure. and duly noted. You wish to have your will forwarded to you at the first convenient and suitable opportunity which might offer itself. which shall be attended to in due time. I have thought considerably of going to Danger myself this week. and if so, take that along with me. therefore I have delayed taking any measures relative to it. but as I now expect hardly, to get up there this week, and remembering that Wills are delicate things to handle. and that delays are dangerous. I thought it best to write you. at least. and ask you if I shall forward it at once. or if I shall keep it until I go up myself. I thought of enclosing it with this and forwarding it by mail. but it occurred to me that you might not consider it a suitable opportunity. and not knowing whether it would be allowable by Law, or not, I will not send it in this way. but will wait further Orders from you. With regard to "Something" which you hear concerning me. I have only to say that you are not authorised to give any credit to any reports which you hear of me upon the matter to which you refer. You know that I have been most woefully slandered and am still likely to be, touching this subject. from you I look for defence You know me. and cannot for a moment suppose that

I would be guilty of a crime such as that to which you refer. therefore render your aid to save me from the mortification and degradation of another reports being circulated. "Treat is engaged". I hope the major will live through all his troubles. I trust he will not be called to watch with a female friend too often, until two O,clock monday morning; if so. I fear he will fall an early victim to Consumption. or to another disease equally as fatal. Connubial, "Conius Corpus". But he is having a little rest now and no doubt will be better soon. tell him he shall hear from me before long. I see you talk like a Philosopher. where did you get all your knowledge? Crescent Division is prospering well. I am glad of it. here's a dollar to be passed to my credit on its Books on a/c of dues. I should like to hear that speech you are going to make. it will be great, no doubt. on what evening do you meet now? — I have but a moments time to write. you will excuse me if I pass rapidly from one subject to another. my time is almost wholly taken up with matters of Business. I do not doubt my old friend J McMetcalf will get through the winter without much trouble. That you and the major have a good Boarding Place, I am rejoiced. I wish it was within my power to tell you how and where to get some money. but it is not. I have "none over" and do not know as I ever shall have. Write. Yours

Athol Aug. 13. 1849.

Mr Metcalf

Dear Sir.

I rec'd yours bearing date Aug 6th and should have given an immediate answer but for the severe sickness of an inmate of my family of dystery, which together with other business had kept me constantly engaged.

In regard to the allusion which you were pleased to make to my Water Cure establishment I beg leave to say it is quite limited in its accommodations of numbers. In a certain sense, it is a private establishment and is comparatively destitute of many of those fascinating adjuncts, so fashionable in "Watering" places and at most Hydropathic establishments.

If however the object of the patient be health I think no greater facilities can be offered than are presented here. My patients are submitted to a strict and careful examination and every case noted and registered prior to making a prescription for it. Excellent water, a dry atmosphere, and charming grounds for walks and rambles form the basis of our reasons for the successful treatment of disease. If there are other reasons, they are of a personal character, which the patient had better learn from observation than any other source.

My terms are five dollars and upwards. Persons occupying rooms with others

I charge but five dollars - unless extraordinary attendance be necessary - Those who occupy rooms alone I charge seven or eight or ten dollars - agreeable their necessities or ~~change~~ choice

Patients are desired to bring 3 comforters, 2 woollen blankets, 2 cotton sheets, 6 or 8 towels - all well marked - also an old linnen or two linnen sheets to tear up

At Boston you take the B. M. R. Road and come to Hill's direct for $1.85 cents - The Depot is about one Mile from my house - but an express runs constantly

You ask, can I cure you &c. &c.

The seat of your disease is, I presume, in the origin of the nerves of Motion of the part affected - If so, your disease is difficult of Cure - few are more slow - I have sometimes seen them yield quite readily to the Water Cure - but these cases form the exception, rather than the general rule - You might improve soon, but I should not anticipate such a result - Should you think best to place yourself under my Care I promise to do every thing which is desired or warranted in a judicious application of the Hydropathic principles -

Respectfully

Geo Hoyt

Mr Metcalf,

Dear Sir,

In reply to your letter of enquiry, I send you this circular which will give you the needful information I trust. Yours is unquestionably a fit case for the water-treatment; how effective it may prove in the trial, experience alone will determine. No other remedy I presume offers much prospect of help to you. Waterford is readily accessible from Portland, & I think you will find no serious difficulty in reaching us.

In haste,

WATERFORD

WATER-CURE ESTABLISHMENT.

To the Public :—The Hydropathic Establishment at Waterford enters upon the third year of its existence on the 1st of May. I can but congratulate myself and the public upon the success that has attended the Institution, and the progress that has been made by the community in its estimate of the merits of the Water-Cure system, and the utility of such establishments. The accompanying certificate, as the judgment of disinterested and enlightened observers, respecting the Institution at Waterford, and the character and skill of its present medical superintendent, will speak for itself, and render superfluous any words of commendation. It is the testimonial of the Clergymen and Selectmen of the town, and others well known through the State as men of the highest respectability.—Indebted to the virtues of water, as I believe, for the life and health I at present enjoy, I have sought to render the benefits of the system generally available. Hence the establishment at Waterford, and the interest I feel in it. All who visit the Institution for the recovery of health, will be welcomed with hope and sympathy. The expenses are purposely made as low as possible, consistent with the success and true interests of the Institution. For patients, the charges, including board, room, lights, fuel, and medical attendance, will be from $6 to $7 per week, according to the accommodations afforded, and the length of time they may remain under treatment. From forty to fifty patients can be conveniently accommodated. Applicants may address Dr. J. Prescott, or C. Farrar, Waterford, Maine, and a circular will be forwarded to them in answer to their inquiries. All communications should be post-paid. Patients should provide themselves with the following articles, viz—Two or three thick woolen blankets, and as many comfortables or quilts, two coarse linen or cotton sheets, and six or eight crash towels.

C. FARRAR, Proprietor.

P. S. Physicians and medical students, who may visit the establishment for observation and instruction, will be charged $5 per week; and so all visiters and resident boarders, unless friends and relations of patients, for whom the charge will be less, and reasonable. All members of the establishment, besides patients, will be entitled to the privilege of the baths, and modes of recreation provided for patients, free of all charge. Waterford is readily accessible from Boston by railroad and steamboat as far as Portland, and thence by steamboat or railroad, and stage. The fare from Portland to Waterford, and *vice versa*, is from $1,00 to $1,25, according to the mode of conveyance. C. F.

Mr. C. Farrar—Sir: In answer to your inquiries concerning the opinion of the people of Waterford, in reference to the Water-Cure practice, which for the two past years has been adopted in your establishment, and to some extent in private families, we are happy to state—

That, more especially since Dr. Prescott took charge of the establishment, there has been a marked increase of confidence in its favor, from the known and observed success which has attended that mode of practice under his administration, both in private families and in your Institution. We have therefore no hesitation in saying that a majority of the people of Waterford and vicinity are highly favorable to that mode of practice—many and a most respectable number of whom would now prefer its adoption in their own families.

HYDROPATHY.

ANNUAL ANNOUNCEMENT.

Sir:—The various modes of medical practice now in vogue, and their comparative merits for curing disease, are now being subjected to a searching scrutiny, by all classes of people, scarcely known in any former period. The long established dogmas of school therapeutics, founded upon a false philosophy, and handed down as heirlooms of medical science, are giving place to more rational views, attended with better practical results. The world is already indebted to Homœopathy for a better system of practice, and for exposing to common daylight the uncertainties of medicine, regarded as a practical art. And Hydropathy, we sincerely believe, is destined to do much more in exposing the abuses and absurdities in popular practice, and of introducing a method of cure for most diseases, more prompt, safe, and certain, and more in accordance with nature's laws, than any other yet known.

Having changed our former views upon these subjects, after witnessing in a large number of cases the superior advantages of the Water-Cure treatment, we commenced the practice anew, the past year, full of confidence and hope;—since which, every day's experience has only strengthened our convictions of its truth, and established its superiority in our estimation over every other mode of medical practice. The large proportion of hopeless cases by other means, that have been successfully treated in this Institution within the nine months past, furnish abundant evidence to justify such a statement. And in further support of the fact, we would appeal with the utmost confidence to the decision of the candid people of Waterford, who have been constant observers of the salutary changes thus produced, as well as to the patients themselves.

It is true that the Water-Cure treatment as a whole embraces those important auxiliaries, so highly necessary to the condition of health every where—proper regimen, pure air, and bodily exercise. But it is the proper application of water itself that best prepares the system for the operation of the salutary iufluences of these indispensable adjuncts. More than forty invalids have visited the establishment during the last nine months, who have been under treatment for different periods of time. All who have left, with a single exception—a case in itself hopeless—have been benefitted by it. Those who remained the needful length of time, have been cured. Others who had satisfactorily tested the mode here for a few weeks only, and returned home to continue the same there, with whom a correspondence has been kept up, are in most of the cases in a fair way of recovery; although a longer continuance here would have been more favorable to the attainment of their object.

The location of Waterford is admirably adapted to secure all the advantages needful to a Hydropathic establishment in an eminent degree to those who seek for health, especially in the summer season; particularly to such as have a taste for mountain and rural scenery. Those who continue to visit the Institution, with a view of testing Hydropathic treatment for the relief of suffering, or for the removal of disease, may be assured of every attention that the nature of each individual case may require.

JOSIAH PRESCOTT, Superintending Physician.

Dear Sir.

Your favor of the 13th. Aug. tells a bad story, and I fear very much that no method of curing will answer for you, as your spinal marrow, seems to suffer, in consequence of the injury by a fall.

It is, however, worth while to try every thing, as the further progress of the disease perhaps may be arrested. For this purpose take a sitzbath in a round washing-tub of 23 to 24 inches diameter and 10 to 12 inches depth. The bath should be taken 3 times a day and each time last for 5 min., viz, in the morning before breakfast when you leave the bed; at 10 or 11 o'cl. in the forenoon; and at 4 or 5 o'cl. in the afternoon. The temperature of the water to be 72°. At the end of the bath wash yourself all over, get well wiped off &

go to bed until you feel warm, which may last a while. — Day and night wear a wet bandage on the lower spine, which must be renewed as often as it becomes too hot or dry.

Drink nothing but water & this, freely during the day; avoid tea, coffee, spices, pies, hot cake and every medicated thing.

After 4 weeks trial of my prescription, please give me notice whether you feel a favorable impression of the course or not.

The $ 2.— in your letter are thankfully received.

Respectfully

Water prescription

Process for Mr Metcalf

1st Early in the Morning let a sheet be wrung out lightly from water of the temperature of 75 degrees — thrown over his shoulders and himself be well rubd by an attendant over the whole body — limbs &c — After which if he be not chilled, let a half pail of cold water be poured over his back —

2d At half past ten o'clock A.M. let him be placed in a tub of tepid water of 80 degrees — the tub having about one and an half pails of water — setting therein from 15 to 30 minutes, increasing gradually from the first to the second time at the rate of two minutes per day — after which let a half pail of cold water be poured over his back — gently

(After this bath shall have been used a month or weeks, let it be colder as cold as he can bear and not be chilled afterward)

In the after noon repeat the Morning bath — to wit — the dripping sheet —

4th — At evening give him a shallow foot Bath — Let the water be 2 inches deep in the tub — of the temperature of 70 degrees — Begin with 5 minutes gradually lengthening the time to 15 minutes — Then also commence reducing the temperature till it comes down to the natural temperature

While taking these baths, let his body and limbs be well rubd. by an attendant - not forgetting his foot bath.

After all these baths, let him be well dried by friction of a dry towel

After this process shall have been continued a few weeks, probably his bathing should be changed - especially should there be change in his condition or symptoms

Sir.

I am favored with yours of Sept. 26th. All I can say in reply is, that to expect any decided advantage from the treatment by water, it is necessary that a very regular course of its applications should be followed up. If such can not be done at home, it would undoubtedly be better for you, to go to the nearest Water Cure Estabt. under charge of a judicious & observing physician, to which you can bear travelling. For the present, however, I do not think that more can be done in the case than what I have prescribed for you under date of Aug. 11th, but it is necessary that it should be done to the letter, to afford a prospect of relief. For the rest

I consider the eruption of your humors as a good symptom, which you ought not to interrupt. You must try to compose yourself and hope for the best from perseverance; fretting and impatience can do you no good but may injure you materially.

Truly yours &c

Dear Cousin,

I received yours of Sept 20 and perused it with much pleasure. I was glad to learn your complaints were no worse and possibly a little on the mend — I have no fears that the Cold Water treatment will be any injury to you — but have strong hopes it will be a permanent benefit. I should no doubt have enjoyed a trip to the iron works when I was in your town — but am not sorry I did not go — as I enjoyed myself well enough in your place.

I have recd a letter from Eliab, he speaks of his excursion, in a very pleasant way, and must have had, emphatically a good time. The Cholera, I am happy to learn has nearly, if not wholly subsided in Bangor, it has proved very fatal. ——— We have been enjoying the finest of weather here for a few days, dont know whether we must call it the Indian Summer, or not. I hope not for I want to enjoy that, sometime in Nov. Frost has held off remarkably, not coming till about the middle of the present month, having a capital Fall for ripening crops — The Potatoes are rotting badly in this section, and farmers tell doleful stories concerning it — Business is pricking up some, the factories are all running and now have plenty of water — —

But money continues scarce and do not knows but it always will — Father Mathew was here a week or two since and stopped a couple of days — very many took the pledge, who we hope will keep it inviolate — We secured some fine Daguerreotypes of him while here, he was in our rooms 20 or 30 minutes, I had a very pleasant chat with him, he is an affable, agreeable old gent. He was received by the citizens in a very creditable manner. There is much of interest in the news of the day — And a person to be tolerably conversant with it, must read more than I do — The European news pours in upon us like an avalanche, and makes ones head ache to think of it, Canada is making something of a stir — California continues to be talked of much as ever, but the Cuban Expedition has had its day. About 30 or 40 letters were received in this place in the last California mail by the Ohio — from "boys" who belong here, most of them sailed in the "Mary Wilder" from Boston, They were most of them at San Francisco, and from the tenor of some of their letters, they wished themselves back. Many were foolish in leaving good situations — Still the tide of emigration of gold seekers is setting in as strong as ever, to the promised land, the Ohio on Tuesday last carried 450 passengers from N York. and vessels are sailing from almost every port

in the Country. —— There was a Curious Specimen of the Metcalf race — in our room just now, Old Doct Pitz the one who has taken so much pains to collect the history and genealogy of the family — he carries his book containing the names &c in MSS. constantly with him and gets a good many meals and nights lodgings of the Metcalfs while gathering materials for his book. He has rather an antiquated, gone-to-seed, sort of look, and I think the first page of his book should be graced with a "full length" of himself — but I am gossipping.

I expect to night to attend a sort of gathering called here a Tea Party — got up by the Ladies, at one of our public halls — something similar to a Fair — And expect to have a good time, as I usually do —— I had to contribute some twenty letters to their Post Office ——

There will be plenty of Girls present, who will need beaning round some, and I suppose they must be attended to — but dont expect to do much in that way myself — as you know the Metcalfs are not famous for gallantry, I'm considerable of an Old Bachelor, and expect to be more.

I was out around in the woods looking about some yesterday, found the Chestnuts plenty, but not accessible – many of them – they not having fallen from the trees — There is a peculiar beauty about or forests at this season — and there is a sort of Melancholly

pleasure, a pleasing sadness in my feelings, as I tread upon the dry and fallen leaves.

I am enjoying myself very well, and am pleasantly situated — what with getting up Daguerreotypes, reading, writing, practising upon the piano some (we have one in our Daguerrean room) &c have something for amusement — this is a business in which we have some leisure, and have all the evenings. Our folks are well as usual. Father is not very strong and not capable of enduring much hard work, but enjoys himself well as he has plenty of news-papers to read. Father and Mother attended Cattle Show in Worcester this Fall — saw Enoch in for a few minutes on the side walk, he was well —

I hope this correspondence may continue, you remember it's your turn to write now —

My Respects to all — - -

I reached home in a most pouring rain, but I kept dry in the stage, altho. my head ached severely the whole distance. Contrary to my usual custom in coming to Saco, I see no signs of a cold as yet. I'm wondering where it is! & hope I shall _wonder_ on for a good while.

Please say to Dr. O. that Miss Jordan is running down fast — can not walk half a mile. But I have accidentally found _the reason why_. I think he ought to know, so as to inform her mother. The reason satisfies my mind perfectly — there is no

with regard to said Hume, I know next to nothing.
in the department of belles-lettres he has a high reputa-
tion but I have never read anything of his. I may say however
that I am fully convinced that no man's "decision" can
be the "final test" on all points in every one de-
partment. There is an infinite diversity of tastes, & it is
highly probable that to every variety of taste there may be
presented things agreeable with it of the kind that ought
to be considered conformable to good taste, & of the
kind that ought to be considered in conformity
therewith; and so the true and objects of both these classes
might be presented to every one would be disagreeable.
You know that your judgment in matters of taste does
not always differ with that of those with whom you
converse by reason of different pursuits, or various degrees
of mental cultivation, but the soul is adapted from
its original constitution to appreciate some things
& has the power of perceiving the beauty of certain other
things; & how then can any person may know infallibly
that some things ought to seem to every one to be the stan-
dard of good taste, nor can any single person be allowed
to decide that whatever he can discover no merit in
is worthless? — I should like to have you tell me of
the pleasure & profit you derive from your various kinds
of reading, & your impressions thereof. — I have not
read "Vestiges of Creation". I have not any fear of any
~~bad~~ final influence that it may have producing an evil effect

on your mind or on that of any other man who has a little share of common sense. We, the vulgar herd, can leave things of that sort to learn[ed] and scholars, but little deference to the judgment of that man who rejects plain [illegible] & puts his faith in [illegible] or [illegible], or in [illegible], or [illegible].

Woonsocket (Dec 20 '47)

Dear Cousin -

Your last of Nov 15, was read with much pleasure, We wish to hear from you often and fearing you may be waiting for me, I have attempted this apology for a letter.

We were pleased to learn that you were so pleasantly situated in your new quarters. It may not seem like home to you - as you are not surrounded by such friends as you are when at home, but it may be well, as it is best no doubt, to adopt a thorough course of treatment which you could not have at home. But we find friends wherever we go, and you no doubt have formed some acquaintances which you prize.

I should like to climb the mountain in the rear of the Establishment and take a view from its summit. You no doubt enjoy more of the society of the patients now than when the weather was warm.

There has been for a few days, in this place, a Lecturer upon "Physiology", and he goes in for Cold Water, with a "rush" — And contends that nearly all the ~~evils~~ ills which flesh is heir to, arises from the prac-tice of "drugging" — And that proper Diet, pure

pure air, exercise, and cold water were the essentials to health — "throw Physic to the dogs" &c —

Father read a letter from Uncle Jacob, written by Josiah — a few days since. they were well as usual, Josiah had had bad luck at his last School, he was chas-tising a Scholar, when the scholar attempted to seize him — he then pushed him back and threw him over, and in the fray broke the boys leg — He was going to keep school in Baldwinsville, and some had told him they thought it would be necessary to break legs and necks too, there, but he hoped not. He said of Samuel, he did not know what his business was, but that it was nothing visible to his "(delicate) eyes". Josiah is a queer chap — open; frank: no reserve, has no secrets. Few would have spoken (or written) of the broken leg so cooly — few would have mentioned it at all — I addressed a letter to Cousin Enoch a while since but have [illegible] no answer —

Our course of Lectures have commenced, our second, was on Tuesday Evening, By Horace Greely — Subject, Congress — He lectured to a crowded house — It was a fine lecture, delivered very ordinarily — He

dwelt considerably upon the peculiarities of many of the members of the last House, which made it very interesting. He said nothing of the Senate. This subject of his at this time was very opportune, as the trial for Speaker has proved so exciting, to themselves and the Country at large. It seems the Whigs have rallied again for Winthrop, and I think his chance is the best. It is really too bad to waste so much time at Washington at the expense of the overdrawn Treasury.

The President's Message will need remodelling to keep up with affairs, if he does not have a chance to present it soon. I apprehend a tough session, much wrangling, and sparring and may be, by way of variety, some fighting among members, before it closes.

Our next lecture of the Course is by Mr Hudson, the Shakespearean lecturer, subject Fallstaff and his associates (I've got I guess one too many l's in). I expect something pretty good. We have some of the best speakers engaged for the Winter. This is a good way of being amused and is much better than some other kinds of amusements which are in vogue.

To morrow Evening a fine Concert is to come off, I may attend, being

very fond of good music. There is plenty for amusement here through the Winter months. The weather has continued fine for Winter, it has frozen quite hard and Saturday last I spent an hour in Skating, I felt that I was a boy again and enjoyed it with much zest. Last night it commenced snowing — and I expected this morning to be waked by the merry jingling of sleigh-bells, but alas! for human expectations — the ground was covered with mud instead of snow.

Have you read Kossuths farewell to his Country? Isn't it beautiful? He breathes his very soul into it — We may yet see him in the "Land of the Free, and the home of the brave." Let him come — France deserves the contempt of all Christendom for her treatment of the Sandwich Islanders — The French have not gained much in the exchange of Louis Phillipe, for Louis Bonaparte. Write soon as convenient, as we are anxious to hear from you — I am well as usual, that is my health is quite good —

Affectionately

Mr J. M. Metcalf
Waterford, Me.

Dear Sir.

Your favor of the 20th inst. came to hand yesterday, in reply to which I would state, that in consideration of all the circumstances, I will receive you as a patient at my establishment, at the rate of $8.. per week, being a reduction of $3.. of my regular charges. If you find yourself able to travel so far, and accept my offer, I shall do all in my power to render you comfortable and, (if possible) to restore you to health. More I cannot promise, but I trust that my endeavors, will not be altogether, unsuccessful, if you can avoid making matters worse than they are. — The dollar sent, I have recd.

Respectfully yours.

DR. WESSELHŒFT'S

WATER-CURE ESTABLISHMENT,

—AT—

BRATTLEBORO, VT.

IS SITUATED ON ELLIOT STREET, and consists of two neighboring houses, united in front by a saloon for social recreation; and in the rear, by wings from each house, containing a large bathing-house and rooms for patients. One of the houses is for ladies, the other for gentlemen.

In each house are all kinds of douches, spacious rooms for sitz-baths, two plunge-baths, supplied by a spring in the rear, and in the bathing-house two swimming-baths, each 25 feet by 15.

A new supply of fresh and pure water has just been provided for these baths from another spring recently purchased, which yields about 11 gallons in a minute.

The establishment can furnish rooms for 120 to 130 patients. A number of rooms and bathing accommodations are besides to be had in the village.

Each patient is supplied with a good bed, consisting of a hair and palm-leaf mattress, and suitable furniture which he is expected to return in good order. The rooms are all warmed in winter either by a stove or an open fire.

The dining-room, 80 feet long by 26 feet wide, is in the new building in the rear of the main houses and connected with them by a piazza all around, affording a pleasant and extensive walk in sultry or wet weather. Patients who cannot leave their rooms, have their meals brought to them.

Besides the baths in the house, there are four douche-houses within half a mile from the establishment, a spring and river douche with a showering apparatus, each with double rooms for dressing. In the spring douches is an eye and ear douche, and an apparatus for 14 hip-baths of flowing water, and three rising douches. Shady walks, beneath the trees on the hill-side, lead to the douches and springs, with seats all around.

A short distance from the spring douches, is a wave-bath which receives its water from a branch of the Connecticut.

In every direction are found fine springs, and a beautiful picturesque country affords the most delightful walks.

For the amusement and exercise of patients, as well as for orthopædic purposes, a large gymnasium has been lately added. Attached to the Establishment are also a billiard-room and a bowling alley.

From Boston, New York and Albany patients can come by steam ~~to Springfield and Greenfield which leaves only 19 miles to be performed by stage~~, to Brattleboro.

The price for board, lodging, treatment, use of all baths that are considered wholesome, assistance of attendants, washing of bed-linen and chamber towels, is for each patient $10 a week in summer, and $11 in winter, payment weekly. Patients residing out of the establishment pay $5 a week. If they require special attendance, they are charged accordingly.

It is necessary for each patient to provide himself with the following articles for his own use during treatment:

1. At least two large woollen blankets.
2. A feather bed or three comforters.
3. A linen sheet which may be cut, or at least, a piece of linen 6 quarters of a yard long and 6 1-4 wide, as well as pieces of linen and cotton for bandages.
4. Two coarse cotton sheets.
5. Six towels.
6. An injection instrument.

These articles may also be bought in the village or establishment, or hired at fixed prices.

For gentlemen who keep horses, there is a stable near the house, and an ostler in attendance.

A sufficient number of waiters and nurses are always engaged, in proportion to the number of patients.

Very sick and helpless patients, or such as suffer under critical diseases of some violence during the treatment, have to hire a nurse or waiter, and to pay board for them at $2,50 per week.

The doctor has during the day time his office in the establishment and takes his dinner there. He directs the patients how to proceed, instructs the nurses and waiters, and gives advice at any time when wanted. He does not suffer any use of baths without his advice, or of food which he considers inconsistent with the treatment.

As the number of places is still limited, patients will do well to make applications in advance.

☞ All communications must be post paid.

On letters of advice a moderate fee will be charged.

Mr Metcalf
Dear Sir
Yours of the 20 inst came to hand this Evening and in answer to your inquiries I would say, that I can give you good accommodations from $6 to 8 per week, and I do not think that I say too much when I say that we have the best accomodations for winter treatment of any other Establishment in New England though by saying this I do not wish to induce you to come when you are by any means. But if you should do so I will do as well by you as any other man, and better. The easiest and most direct route from Portland to this place, is to take the cars direct to Lawrence, thence to Lowell, where you will find no difficulty in finding the establishment as all the coach men, know the place,

Should you deside on coming I would like you to let me know at what time I may Expect you, &c

Yours very Respectfully

Lowell Water-Cure Establishment.

A YEAR has scarcely elapsed since the establishment of the Hydropathic Institution of Lowell, and yet the most sanguine expectations in regard to its success have already been realized. This is not surprising, however, when the peculiar advantages of its locality are taken into consideration.

Occupying a commanding site on the banks of the Merrimack, amid a landscape of varied beauty, including the adjacent city with its extended boundary of water, the surrounding country with here and there the summit of a distant mountain, it presents to the lover of the picturesque no ordinary attractions; while its facility of access to a large, manufacturing city,—being only three-fourths of a mile from Lowell,—renders it a most desirable retreat for those, whose recovery from disease demands, perhaps, the healthful repose and purer air of a country residence, and who are yet unwilling to retire from the stirring scenes of a business community.

The establishment is sufficiently large to accommodate from thirty to forty patients, and is fitted up in a very superior style, the proprietor having spared neither expense nor exertion, in connecting with it every facility requisite for Hydropathic treatment, and in throwing around it all those domestic attractions, the absence of which is often so painfully felt by the invalid, when separated from the many endearing associations of home. It may therefore be expected that no additional effort will be wanting, which may be necessary to promote the comfort of the patients.

Its elevated and airy location, the arrangements of the baths, and conveniences for the treatment generally, including an abundant supply of pure water, cannot fail to render the establishment one of the most attractive resorts of the kind in the country.

The Bathing House is constructed with two entire sets of Baths, each consisting of Plunge, Shower, Douche, Hose, Fountain, Eye, Spray, Flowing, Cold, and Warm; and so arranged as to be inviting and easy of access by invalids, at all times, from each wing of the building, one of which is occupied by gentlemen, the other by ladies. The house is so warmed as to be perfectly comfortable to the most feeble valetudinarian, even in the coldest weather.

The medical department is still filled by Dr. H. FOSTER, whose practice both in medicine and Hydropathy, has been sufficiently extensive to justify the hope, that he will be favored with the confidence of those who may commit themselves to his care. Especial pains are taken to provide the most experienced nurses and attendants.

More than one hundred cases have already been treated in this establishment, in many of the most difficult of which the superiority of Hydropathy to medical systems has been satisfactorily proved.

The water treatment has been particularly successful in Rheumatism, acute or chronic; Gout; incipient stages of Consumption; Nervous Diseases; Dyspepsia, or Indigestion, with its train of symptoms, as Headache, Constipation, Liver Complaint, Jaundice, etc. It acts like a charm in all Eruptive Diseases—Measles, Scarlet Fever, etc.; Scrofulous and Spinal Complaints; diseases peculiar to females; Fevers of various forms; and affections arising from impurities of the blood, as Tumors, Ulcers, Fever Sores, etc. *are more successfully treated by water than by any system of medicine.*

Terms for board and treatment, in this establishment, vary from six to eight dollars per week, according to the rooms occupied,—payable weekly. Washing extra. Invalids so feeble as to require *extra attention*, will procure their own nurses, or pay an additional price.

On account of the peculiarity of treatment, each patient will be required to furnish one linen, and two coarse cotton sheets, two thick woolen blankets, and three comfortables.

*** All communications addressed (post paid) to the Physician, Lowell, Mass., will receive prompt attention.

Mr Metcalf Sir I recd yours of the 5th in due season but have delayed answering it from unavoidable circumstances — you speak of its being possible that the Tinc Guaiac may produce a high colour of your Urine, it may be possible but not probable that it would have that effect, but where there is a diseased action going on in the system the Kidneys are liable to become effected by sympathy which frequently produces a turbid or high coloured urine which is more likely to be salutary then otherwise — The pains in your hand and arm and the spasmodic drawing of the muscles of the fingers and hand are common and more frequently on the opposite side from the first attack than otherwise, and the dul dead pain and the prickling sensation, which you feel and the soreness in the calves of your legs are sometimes favourable indications but not always —

your brother told me he had obtained for you a Galvanic machine I think well of your using light shocks frequently for they invigorate and give tone to the system but strong ones exaust the vital energy and leave the whole system debilitated — but the way to gain much benifit from it you must use light shocks and continue them for a long time and at the same time use

dry frictions with a flesh brush or coarse Towel —
and after a thorough trial of these you will use
the cold shower bath and moderate exercise and
at the sametime use some warm stimulating remedies
internally such as the Horse radish Mustard Garlic
Spt. Ammonia & Guaiac - the two last to be prepared
together as follows ℞ Aqua Ammon — ℥i
Tinc Guaiac — " iij
M Dose one teaspoonful
three or four times a day as you find you can bear
the other articles you will steep in water then strain
them off and add half as much best cider as there is of the
tea and drink as freely of it as you can bear —

9 O'clock evening –

Friend Metcalf, I've that moment received your line, and but 30 minutes to answer and deposit in the Office before the Mail is closed for departure at 10 O'clock. Storms & blows for two weeks past have delayed my operations, and not knowing Mr Farrar had engaged a physician for that time, I was in no hurry about returning under a week. – But have now decided to leave here Tuesday morning & shall of course reach Waterford about wednesday eve. I heard transiently from Portland, that Dr Meade was going to Waterford soon.
My respects to all the household and be assured of my best regards. –

Cousin Joseph

It is a cloudy and rather muddy day — consequently my business gives me a little respite; people not getting out, as they do in fair weather, so I devote a while to writing. ——— Your last was recd and read and was sorry to learn you were no better —— was greatly in hopes the treatment you was subjected to might prove beneficial and can but think it may yet do good, there is much virtue in Cold Water. I caught a severe Cold a week or so since and was obliged to stay at home a day or two and take some Homeopathic doses, which was mere fun, compared with what we used to have to take in the days of Jalap, Picra and Epsom Salts — But what has this to do with cold water? much in taste — It is an astonishing age in which we live, and a monstrous great Country we are inhabitants of, with many prospects of its being larger, and some of its being smaller, the latter however smelling considerably of moonshine and Southern gas ——— How very condescending in Foote & Clemens to put off the dissolution of the union for a week or two; we have time to breathe and get ready for the "wreck of matter" ——— Well really, this talking of seceding does look as though some were really in earnest about it — but they cannot accomplish it, and

California — who is knocking at the door — must be admitted with her present boundaries, Calhoun, Foote &c to the contrary notwithstanding —

I wish this question were settled, and the sooner it comes the better — I believe they are ready (the North) to vote, and if I can read the signs of the times the time has come when the North is not to be bullied, browbeaten or frightened by the Chivalry and if the admission of California is to be the "test question" (as Calhoun says) — I wish it might be tried tomorrow — I am tired of this everlasting talk and bombast on the part of the South —

We have had an unusually fine winter, but little snow, and much sunshine & have not had a great chance to see the shady side of things — really I dont believe that well known character, the "Oldest Inhabitant" can remember a prettier, pleasanter and more smiling winter than the one we have just lived through — I have heard blue-birds for a week discounting their notes (no shaving) from the top of an ancient Ash near our Cottage, and this morning, dreary as it was, one was trying a song, but it was evidently no go — the weather was not right to bring it out — so after an effort which proved abortive — he hung his head and flew away —

We were entertained in a masterly manner a week ago Tuesday evening, by readings from

Shakspeare, by Geo Vandenhoff, his selections were Shylock, Falstaff & Wolsey — It was very fine — he is one of the first class actors on stage — Last Tuesday evening we were amused by hearing Park Benjamin read his humorous Poem "the Age of Gold" — the audience were in a roar of laughter nearly the time, there were many good hits at the times, adroitly done, — and appreciated, I should judge —

What think you of the Rochester Knockings? they have created quite an excitement among the good people of that vicinity —

Business has not improved much though there are hopes of the Spring trade being good — Our Manufactories are all in operation and have been through all, and one very large one (new) is now about ready to receive the machinery — But our village population is made up of too much foreign to the exclusion of Yankees — And they earn but little and can have but little to expend — Our family are well, and send respects — Forgive the disconnected and hasty manner of this letter I fear some parts are almost unintelligible — Write to me soon as we are all anxious to hear — I have not heard from any of our Metcalf friends since I wrote — My respects to all, hoping your next may bring the good news) Chas H Metcalf
of an improved state of your health

My dear Sir,

I was deeply interested in your letter of the last month, and have felt a strong desire, that a faithful preacher of the Gospel might come among you. I have written to Mr Parker of Foxcroft on the subject and have received a reply. He thinks very favorably of a supply being granted, but deems it highly important, that it should be the right man. We hope to obtain for you, during the approaching vacation at the Seminary in Bangor, an acceptable & faithful young man, belonging to the present senior class in that Institution; & prior to that time, Mr Perry or Ilsley will be able perhaps, to spend a single sabbath in the place. Should the services of the young man, who may visit you from Bangor, prove useful & acceptable, his first visit may lead on to other arrangements for the future.

It is a deep mystery, that one who loves the cause of Christ and would fain live and labor many years for Him should be laid aside as you have been from all active service. But "thou didst well in that it was in thine heart to build me an house." And patient, cheerful suffering glorifies God. And death, tho' it may seem to come prematurely comes always

at the very time & in the very way that infinite wisdom of God shall ordain — to the believer in Jesus a kind friend, a welcome messenger.

Hoping that you my dear sir, will find in every exigency the grace of Christ sufficient for you,

I remain very truly yours,

B. Tappan.

My Friend Metcalf, April 30th

1860.

I am returned thus far from a protracted but most successful visit to New York in search of the man or men for my establishment. I prefer him in many respects to Munde. Do look into all the Portland papers of this week, & see what I have done, & propose to do, & how the press greet the undertaking. I wish You would write a suitable article for the Bangor papers, & send me a copy. How is Your health, & prospects? If You will return to Waterford, & remain if necessary a Year I will keep You even under this new & to me more expensive arrangement, for 6 dolls per week. You must not sink into imbecility without manful & courageous resistance. If You can be helped at all, & I think You can in time, it must be a la Water-Cure! I wish Your friends, & Dr. Deane would bestir themselves & give You both a fair, & the best chance to get well! You both deserve it, & it is their duty to furnish it. But You both are of age, & can judge & act for Yourselves.

In haste & truly Yours,

Yours of Apl 17 is received and read, and I find this pleasant Spring morning (though cool) a little leisure which I will appropriate to writing. The weather through the month of Apl has been rather wintry, indeed it would almost seem that there had been some mistake in apportioning out the amount of sunshine, for each month, and the quantity for ~~March~~ Apl was let out in February, while the snow, wind and cold intended for Feb was bestowed upon us in Apl. We had many snows in Apl, but no sleighing, and the Spring is backward, the peaches and cherries are not yet in flower, though but few warm days would be required to bring them out. We have had a few fine Spring-like days and they have been most welcome. Last night was rather cool, and this morning I am sitting by a coal fire, which I find is very comfortable.

But few seed are in the ground yet, and in fact but little ground ploughed.

Business in Woonsocket is dull and grows duller, our business men, traders &c

complain, and say it is hard times as they have ever known it — But your [illegible] was [illegible] taken place; one of the factory owners suspended payments a few days since; our factories are all in operation, but not much money in circulation. When will congress talk of something beside the slave question, and do something in the way of legislation for the Country — I am afraid the South will again carry their points as they usually do, as there are always Northern men enough to be found voting with them, notwithstanding their protestations at home, of their love of Northern principles —

There must be sport for Sportsmen in hunting your moose and deer we in this region find nothing larger than rabbits, that are valuable, and very scarce at that, in fact a man may rove with a gun all day, and find nothing to shoot at worth the powder.

May day passed off very quietly and but few parties were out that I have heard of, in the evening there was some amusement provided, in the way of a dance at one of our halls, and no doubt there were many attended, At another large hall there was a party of Gents and Ladies, married and single at which I counted one, ("I was there") there were

about thirty couples present; and music, singing, promenading, fox and geese, Tableaux, eating cake and drinking coffee formed the diversions

I very much regret to learn that you continue to fail, and that your complaint seems beyond the reach of medical treatment I have had great hopes of Hydropathy in your case and of your restoration to health; perhaps it is not so to be; Our days are Short, our life little more than a dream; some reach the age of three score and ten, some go to rest ere half that time is told and some sleep before they ~~[illegible]~~ know anything of the cares and troubles of the world, But with all it is as a Summers day — ~~[illegible]~~ a step from the cradle to the grave —

And it is a source of much satisfaction and Consolation, aye, most consoling, to know we are in the hands of the best of all beings, and that his tender mercies are over all his works.

We can appreciate the love of a kind earthly parent, who would do everything in his power for our welfare, but how much above an earthly father, how much better than an earthly father can be, is our heavenly father; most tender, endearing relationship is that of parent and children, in his love and mercy do we all trust; we are not to rely upon works, they avail us little, we are all imperfect, such a state as perfection is not to be attained by mortals here below, we are human, created with passions

and imperfections, and humiliating though it may be, all must confess us are far from perfect — and all must throw themselves upon the mercy of him who created us.

Last night at ¼ before 7 there was a novel exhibition took place in our village, a person dressed in "Submarine armor" went to the bottom of one of our ponds, and remained 20 minutes, he was supplied with air by means of a force pump, attached to a tube leading to the armor from the shore — It may be very useful in many cases — Give my respects to all your folks and if it is not too tiresome write to me, but don't write, by any means if it is an injury, I should of course be happy to hear from you but advise you not to write if it is at all tiresome, but if some of your folks will write again before long we shall be glad — hoping this may find you improving, I remain — Your Cousin

Affectionately,

Chas. H. Metcalf

DR. CHARLES MUNDE'S WATER-CURE ESTABLISHMENT.

At Bensonville, Northampton, Mass.

1.—Persons who visit the Establishment for medical purposes, will apply to the Doctor at his office.

2.—Persons who come for other purposes, are requested to apply to the superintendent.

3.—No smoking or chewing tobacco in or about the premises. No spitting on the floors, &c.

4.—Regard due to the sick and nervous, requires that all unnecessary noise be prohibited in and about the houses. After the lights have been extinguished, all walking about in the halls, or on the piazzas, singing, loud speaking, &c., ought to be avoided.

5.—For the sake of quiet and cleanliness, dogs are not admitted in the establishment.

6.—No carelessness with fire, &c.

7.—The lights in the parlours and halls will be extinguished at nine o'clock in winter, and at half-past nine in summer, when the doors of the house will also be closed; and it is expected that no one will permit a light to burn in his room more than half an hour later, unless sickness require it.

8.—It is expected that the attendants, and all the rest employed in the establishment, will do their duty faithfully. Patients who have cause to complain, will apply to the superintendent, or to the Doctor and his wife.

9.—Patients are requested to follow strictly the prescriptions of the Doctor, and not to bring confusion into the establishment by consulting other physicians; those who have no confidence in the Doctor being at liberty to leave. Should, however, a consultation with another physician be necessary, the Doctor will never refuse his consent. Also, consultations with the regular physician of the patient, either personally or by letter, will be cheerfully acceded to.

10.—The baths being exclusively for the use of the patients, no other person is allowed to use them without the Doctor's special permission.

11.—The Doctor will visit the patients at their rooms when necessary. In cases less urgent, they will please to call at his office between ten and one o'clock, before dinner, or between three and six o'clock, P.M. They will be kind enough to remember that his time is divided among many, and that his office hours are not devoted to topics of mere conversation.

12.—Breakfast is served up from half-past seven to nine o'clock, dinner at one, and supper at half-past six. The bell will ring once for breakfast, and twice for dinner and supper. The small bell ringing half an hour or an hour before, is for the servants.

13.—The bedding furnished by the establishment is never to be used for purposes of the cure. Towels, sheets, blankets, comfortables or feather-beds, and other articles necessary for the cure, will be brought by the patients, or, if furnished by the establishment, they will be charged separately.

14.—The bed linen furnished by the establishment will be changed every week; if required oftener, the washing to be at the expense of the patient.

15.—Patients who wish to have their linen washed at the establishment, will leave it in a bundle, in their rooms, on Monday morning. Every piece should be properly marked.

16.—No one is allowed to wash bandages or other linen in the bath-rooms. No admittance to the wash-house, except for those who work there for the establishment.

17.—All persons will be considered responsible for breakage or damage they may do to furniture, fixtures, &c., on the premises. Common chairs are not to be used as rocking chairs. Patients who bring their own attendants, are responsible for them.

18.—Payment is expected every Monday on receiving the bill. Persons who engage rooms, will pay for them a full week from the time engaged, whether they occupy them or not.

19.—TERMS:—For treatment, board, service, &c., $10,00 per week. To Patients occupying some of the attic rooms, or one room with another patient, or furnishing their own bedding, a reasonable allowance will be made.

20.—Gentlemen and ladies accompanying patients, and occupying one and the same room with them, $5,00 per week. Private servants rooming with their employers, and boarding with those of the establishment, $2,50, and if sleeping with the latter, $3,00 per week.

21.—Children left under the Doctor's and his wife's care and treatment, $90,00 per quarter; if occupying private rooms, prices as above.

22.—Patients taking their meals in their rooms, or requiring any other extra service, will be charged in proportion to the time it takes.

23.—Fires in private rooms, $1,00 per week.

24.—Washing, 50 cents per dozen.

25.—A fee will be charged for the first examination, whether the patient enter the establishment or not.

GENERAL DIRECTIONS

FOR

PATIENTS IN DR. CHARLES MUNDE'S WATER-CURE ESTABLISHMENT,

AT BENSONVILLE, NORTHAMPTON, MASS.

1.—Follow strictly the advice of your physician; a disease which cannot be cured by reasonable treatment, founded on experience, will not be cured by whims of your own.

2.—No bath should be taken within two hours after breakfast and supper, or within three hours and a half after dinner.

3.—No meal should be taken within one hour after a bath.

4.—Walking should be resorted to after every bath until the circulation is restored, viz.: till your feet and hands are as warm as the rest of your body. Patients who cannot walk, may take other exercise, or have their limbs, especially feet and hands, rubbed till warm.

5.—No running or any other violent exercise after the bath should be attempted. The circulation is not restored by force, but by exercise continued for a sufficient length of time.

6.—No over-exertion, or exercise, should be continued too long.

7.—No lounging or idling when you have sufficient strength to move.

8.—No fear from water should be entertained.

9.—Patients should not remain longer in the bath than prescribed; nor remain more than one to two minutes in the plunge.

10.—No bath should be taken when the body is entirely cold.

11.—No bath should be resorted to when the body is over-heated by exercise. When cold, take exercise before entering the bath; when hot, repose without undressing.

12.—Be moderate in eating, but do not starve yourself. If you feel uncomfortable and in bad humour some time after dinner, it is a sign that you have eaten too much, or that you have eaten things which do not agree with you; if you feel weak and empty, it is a sign that you have eaten too little. Probably you will have more occasion to complain of the former feeling than of the latter.

13.—Drink water often, but not in large quantities at once. There is no general measure for all; none ought to drink less than a quart, none more than a gallon a day.

14.—The water for drinking and bathing ought always to be fresh from the spring.

15.—Do not drink too much at dinner. The best time for drinking is early in the morning, and two hours after the meals.

16.—During any bath, all the parts exposed to the water ought to be continually rubbed with your hands. In the plunge, the circulation ought to be kept up by rubbing the legs, arms, head, and the rest of the body.

17.—Before entering the plunge, wet your head and chest, enter the bath head foremost, and dive it under the water several times whilst in it.

18.—The douche must not be allowed to fall on the head or stomach, and persons having a weak chest should also protect this from it.

19.—Patients taking long sitz-baths should drink water repeatedly while in the bath. The same should be done by patients taking long foot-baths. If either of these baths are taken for diseases connected with congestions, it will be good to wash the face and neck before and after the bath, or even to take cold compresses, but slightly wrung out, on the head while in the bath. These compresses should be changed as often as required.

20.—If the pack, either in the wet sheet or the dry blanket, produces congestions or headache, it ought to be shortened.

21.—Whoever remains long in the pack ought to drink some water every half hour. Patients coming out of the pack very hot, ought to drink some water and to wash their face and chest before going to the bath.

22.—Fomentations ought to be changed when they become dry. They should be well covered so as not to allow the air to touch them.

23.—Passions and all mental and bodily excitement, beside that inseparable from the cure, ought to be carefully avoided.

24.—Exciting and stimulating drinks, spices, tobacco in any form, weaken and even annihilate the effects of the cure.

25.—No treatment on Sundays; the body ought to have some repose at intervals.

26.—No treatment during the time of menstruation.

27.—Exceptions to these rules, and other particulars, will be prescribed by special directions for each patient. After the reception of the latter, the patients will give the Doctor immediate notice of any change that takes place in their condition.

CHARLES MUNDE, M.D.

J. M. Metcalf Esq.

My dear Sir,

I am very sorry to learn that the applications etc as prescribed by me have not had any happy results. It is a bad sign — however continue and take the double dose of nux, as I have reasons to believe that it is not so strong as mine. Should you feel some changes please to give me notice.

I suppose the weather is as bad in Me. as in Mass.; perhaps the fine season will help to bring relief. —

Perhaps I may have occasion to write more next time. For this moment accept the renewed assurance of my sympathy and believe me

Yours sincerely

Dr Charles Munde

Respected Brother

By your much esteemed brother Eliab, I learned that he intended to leave for home this afternoon, & taking the advantage of so good an opportunity to send you a few lines I improve a few moments in writing — I sincerely regret to learn that you are no better and hope that I may soon learn that you are on the mend. I can sympathise with you in part; in your afflictions. It seems at times that some particular ones are selected from among us to be afflicted and I often think of you and my heart at times seems as though it would break when I think of the many hours we have sit together in old "Cynosure" Hall, discussing the merits of certain proceedings for the benefit of our Brothers — Although you are not now with us personally, yet you are remembered by us all I trust.

Could any of your brothers of "Crescent" Division afford you any relief they would undoubtedly do so with pleasure

I know that all is being done by your brother Eliab for your comfort that he can do and as long as money & means can procure any thing for your comfort they shall not remain idle — Can you propose or suggest any thing that I can do or procure, that would alleviate you in the least if so send me word by Eliab.

Joseph I trust you will not give up all hope, but that your faith may be strengthened, and soon be fast regaining your former vigor and activity in doing good

I hope yet to see you among us as I formerly have engaged in promoting our glorious cause "Temperance" while we have been striving to put down Intemperance in our midst, we see those around us endeavoring to crush us But God is on our side! I believe he will sustain us in our Godlike enterprise.
We have many whose faces are against us, but we are determined not to be overcome, although the rebels are in sight and outnumber us in this City, if we enlisted as did the Soldiers of the Revolution with a determination to conquer or die we shall come off victorious and I trust you may be one who shall Celebrate that day when Intemperance shall be known in our land no more forever —

I remain yours as ever

Will it be presumption in a stranger to call & sit down a few minutes with a companion in tribulation. Thro' my mother I have learned so much of you that you are not an entire stranger to me, & if my ability had been equal to my desire you would have rec'd some expression of sympathy before this. I know something of the suffering attendant upon the failure of dearest hopes & cherished plans — something of that unsettled state of mind when one is apparently balancing between declining & returning health, & is weighing the reasons why he should be satisfied with either. I know too, the deep tranquility, the perfect peace which ensues as soon as the whole soul can say thy will be done. Then if God should ask Would you choose health, sickness or death? the unhesitating answer would be thy will be done. And equal satisfaction would be felt whatever the result might be, for unerring wisdom guided by infinite love would decide — God would be glorified & the declaration fulfilled, all things work together for good to them that love God. It seems to me that the only personal interest a Christian can have in life is to become as nearly like God as possible & do as much work for him as he can. And I confess there are few things about which we are more liable to mistake than the way of doing good. I

[illegible] may reveal that the period of greatest apparent uselessness was in reality that of the greatest usefulness [illegible], [illegible] in reality [illegible] very [illegible] [illegible] also serve who only stand & wait.

How delightful to see that [illegible] we can do, & if our hearts are right with him, will [illegible] us to perform it. Whether he calls us to active service or to a station requiring a large degree [of] submission, fortitude & trust His voice should [illegible] [illegible] the night is far spent, the day is at hand, the day that has no termination. May you have the happiness of feeling assured, through every stage of [illegible], that you are passing by the right way to a city of habitation.

From your sympathising fellow pilgrim

[illegible]

Andover, June 19. 1850.

Friend Metcalf

I will give you some idea of how the time has passed with me, since receiving yours of March 18, or try so to do. I was then busily engaged in looking over & criticising Mr Taylor's translation of Kuhner's Gk. Grammar. Mr T. is the Principal of Phillips, & evidently much better as a teacher than in preparing books for others. Perhaps I tried to think too closely for weeks in succession, & became exhausted; & then one evening exposing myself, I took cold. & had quite a severe inflammation of the lungs for a fortnight & so far recovered that I ventured to leave home. I arrived some days after the term began. I found that ~~[illegible]~~ in this school, the highest of its class in the country, required that I should make great advances in scholarly attainments. And from that time as my strength would allow I have been studying day by day as my health would allow. Some days however I am able to make far less of preparation for recitations than is desirable. Of letters, this is the first I have undertaken since I came here, aside from what I have written home, & to my brother at Brewer, & a page or two to Daniel at the Sandwich Islands. I have tho't of you day by day, &

been anxious to know how you were, & have fully purposed to write when I could find the time. To-day I take the time. — My predecessor, Mr. Drummond was driven just as I am, & was just on the point of giving up the ship in the very depths of despair as to his power of sustaining himself, as I have till the close of his three years here he was one of the most, if not the most efficient & popular teachers who has ever been here. By his exertions he became completely prostrated once. I have not fully regained my usual health, except some tho' I have worn a wet compress on my chest for more than two months. I find that this prevents the irritation that would otherwise ensue from over-much talking. Seven weeks of the term yet remain. I hope to get thro' without breaking down. Then comes a vacation of 4 wks, when I hope to rest & sleep to my hearts content. Next term I hope the duties will be far less arduous as my most advanced class passes into other hands, & instead thereof I take a class of beginners. If I had any time to read I could have free access to the ~~Seminary~~ Library, which contains I ~~think~~ at least ~~about~~ 12000 vols, perhaps thousands more. I board at Dr. Woods a hale old gentleman of child like simplicity of manners. He is 76 yrs old to-day. I have not been more than two miles from this centre since I came. — My wife's

health is perhaps not materially different. She may continue as she is for yrs, will probably never be at all better, may become worse suddenly & escape us without much warning. The solemnities of existence & eternity I do not realize at all. — Indeed since I have been here I have time scarcely to turn my thots out of the channel of school employment. I hope your peace will be like a river till you enter upon the infinite joys of God's presence. I very much wish to hear from you immediately.

I think my sister is considerably better than before she went to Waterford. My little Lizzie would like to see me as well as I her. — I would have said that I make no calls. In the school room, in walks, & at the table are my intercourse with my fellow beings. Books, books books. That would be the most the chief books enough for me at other times. Generally I enjoy this close occupation, tho sometimes I am so weary as to turn from it with loathing. It is not so wearing as original composition, or close criticism, otherwise I should have sunk ere now. As it is, my sleep is not so deep & refreshing as I require. Now write experimentally about yourself as you can constrain yourself to it and let me hear from you thro' an amanuensis. I hope you are in comfortable health. — The Lord be with & bless you.

Yrs truly

[illegible] [illegible],

My good friend (as I call him) will you accept this book from me in token of my desire to please you: I wish I knew what book you would best like - you could hardly have chosen a more acceptable one than the one you sent to me, for which I thank you - which I shall carefully keep. I have to beg pardon of you for whatever, in my words or conduct towards you was unkind - to every instance in which my hasty spirit caused me to wound in any degree the feelings of another [illegible]

Miss Hannah A. Moore

Bloomfield, Aug. 30, 1850.

Friend Metcalf

I was glad to hear from you, glad to learn that your days are passing so peacefully & pleasantly; your sure anchor being, I hope, a child-like trust in Him who doeth all things well, & whose declaration is that all things work together for good to them that love him. How much it requires to teach us our frailty, our dependence, that we can attain to no solid lasting happiness, [illegible] from God.

I was summoned home the last of June by the alarming illness of my wife. She became better speedily, & is now as well as she has been for many months, is able to sit up most of the day, & to take quite long rides. There is yet considerable reason to hope that she may live [illegible] years — I returned to Andover July 8th, [illegible] [illegible] [illegible] & [illegible] [illegible] [illegible] [illegible] years, [illegible] [illegible] [illegible] weeks, in examination & then took my leave of Phillips Exeter. I am not adapted to the sphere of labor, [illegible] [illegible], [illegible] [illegible] [illegible] [illegible] the [illegible] & [illegible] the perplexity [illegible] in a

some recollection of school-boys calls up, being requisite. Well I have been at home three weeks resting, resting, resting, - but I have hardly begun to regain even very customed degree of strength, & disposition for mental effort & equanimity. I remain here at present. When then may for me yet to do in this world day will yet appear. I shall be endeavoring to study and am able to endure it. Exceeding weakness of my memory is very great enemy in endeavoring to accumulate knowledge. I have to regret that I am not a diligent scholar in the attainment of the knowledge that never fades away.

In the spring I solicited my sister to visit you. After mailing my last to you I received from her the enclosed. The difficulty was of great benefit to her & possibly she may at some time enjoy comfortable health. — My good mother still lives, & her heart & her home are ever open to me with all my undeserving.

I was interested in your description of flowers but whenever I enter into the field, I always change & pretty to disappoint. I feel the need, indeed, of soul-passion, to accomplish any thing more now than this meagre hasty record. I hope you will be able to continue your correspondence with me while it shall afford any pleasure to yourself.

Yours truly, Isaiah [illegible]

Supposed feelings of Columbus upon the discovery of the new world.

In order to appreciate the feelings of a person on any particular occasion, we must first become acquainted with his character, his situation, and his previous history. Christopher Columbus was the son of poor parents, and his early advantages for acquiring knowledge, were very limited, yet he became distinguished, not less for his scientific attainments, than for his bold and enterprising character. When quite young his nautical skill & geographical knowledge were by no means inconsiderable; he was well acquainted with the practice, as well as theory of navigation, and was distinguished for courage and manly independence of mind. A remarkable trait in his character was a fixedness of purpose, which made everything subservient to his great object, and the result proved in his as well as almost every other case, that unwearied application, patient perseverance, and untiring industry will bring about almost any desired end. We see him struggling against, and overcoming innumerable difficulties; rejected by princes as an absurd visionary, still patiently persevering for many years, (five years he solicited at the court of Spain alone)

until at last, through the intervention of a friar, who had some influence with Queen Isabella, he obtained an exploring fleet of three small vessels, scarcely superior to river and coasting craft of modern days, with a crew of ninety ignorant and cowardly sailors. div.

The difficulties which Columbus had to encounter, — a passage over a sea never before crossed by man, without chart or guide, the pusillanimity ~~of his own mind~~ and mutiny of his crew, and above all the variation of the magnetic needle, a phenomenon he could not explain, and which without doubt had its effect to increase the anxiety and suspense of his own mind: These were circumstances which would have shaken a courage less firm, or a resolution less undaunted. . . . .

But what must have been his emotions, when the joyful cry of land! land! was heard, at the very period when the unbelief and impatience of his crew had well nigh compelled him to abandon the enterprise! What must have been his feelings of joy, gratitude, and exultation, when ~~his~~ the light of day presented to his eager eye, a verdant land, teeming with all the beauty and luxuriance of a tropical clime! What must have been his astonishment to see the shore covered with multitudes of natives, with their wild gesticulations; painted with grotesque images, and decorated with plates of gold and rings of silver!

All his long cherished hopes and expectations were realized; he had immortalized his name; he had given a new world to mankind.— Imagination fails in the effort to portray, and language to describe his emotions. —

Feelings of Columbus
on disc. new world

HE is very [illegible], does [illegible] [illegible] [illegible] [illegible] [illegible] strong mind; has considerable talent and [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] than it [illegible], is capable of being a good scholar doing fine business, with advantages and application of distinguishing himself somewhat, but is inadequate to great undertakings, cannot sway an extensive influence nor be really great, — has a system and organization of medium strength and perfection; — has great impetus, enterprise and efficiency, <u>drives</u> what he takes hold of. His brain and nerves predominate in activity, giving clearness of perception, quickness, mental and physical, susceptibility to excitement with want of endurance and power. Has extreme intensity of action, & some brilliancy of talent, with vivid feelings and conception, yet for want of strength of system his mental operations are flashy, too intense to last, the activity being too great for the strength. He sets every thing by his family, is an affectionate companion and parent, very happy with & miserable away from his home & family; is an ardent admirer & tender lover of the person & company of the other sex, capable of intense connubial attachments, feels strong sexual impulses, desire to marry &c. — is very fond of children & pets, likely to over indulge them; loves his parents with indescribable tenderness & strength, ~~[illegible]~~ will [illegible] [illegible] [illegible] [illegible] on the [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] — and his [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] disposed to attend to his [illegible]

thing at a time, but can turn rapidly from thing to thing, is neither disconnected nor prolix, - is resolute and courageous, spirited and powerful as an opponent, quick in resistance, boldly meets almost courts opposition, is not deficient in indignation but hates to see or cause pain or death; - has a good appetite, is not dainty, [illegible] property for what it procures, is industrious and saving, but not penurious; is candid and open hearted, loves truth, dislikes and seldom employs concealment or underhand measures; thinks much of and about himself, has a great amount of character of some kind, is watchful, careful, anxious solicitous, provident, too much so if anything; enjoys the approbation of others but will not sacrifice much to obtain it; is highminded, independent, self confident, dignified, his own master, assumes responsibilities, does few little things, aspires to do and be something worthy of himself; is firm, may be fully relied on, is set in his way, hard to be convinced or changed rather wilful;

has too little moral feeling or principle to withstand his propensities; — is scrupulously exact in matters of right, honest, upright, faithful, moral, penitent, cannot tolerate wrong, puts duty before expediency; looks on the dark side, is prone to despond, expects and attempts too little, succeeds beyond his hopes; is incredulous but listens to evidence, may feel religious worship, but has little respect for men; sacrifices self on the altar of pure benevolence, scatters happiness wherever he goes, is kind & obliging, glad to serve others even to his injury;

Has fair mechanical ingenuity, [illegible]

nuity, will do well with practice.
has refinement of feeling, expression, &c. without sickly delicacy, some love of poetry yet not a vivid imagination. exceedingly admires & enjoys mountain scenery, thunder, lightning, tempest, vast prospect &c. enjoys travelling, — copies some but cannot mimic, perceives jokes & relishes fun but cannot make much; — has is not eminent for talents, but has intellect enough to get along in the world, knows a great deal about matters & things in general, is quick of observation & perception, seizes as by intuition upon properties, fitness, value &c of things, has practical matter of fact, common sense, tact or talent; superintends & acquires with facility the details of business, has a decidedly practical intellect, has great desire to know, investigate, examine &c., is a great observer of men & things, quick to perceive, sees what is doing & what ought to be done; remembers the faces, forms, & looks of persons, beasts & things once seen, has an excellent eye for measuring proportion hight size angles perpendiculars &c. is quick to detect disproportion &c. seldom notices colors unless obliged to, but can by aid of practice, soon [illegible] them; is systematic, has a place for things & things in their places, can reckon in his head with facility, become a rapid & correct accountant, recollects the looks of places, where he saw things &c, seldom is lost even in the dark.

has a strong distinct memory; has a clear retentive memory of historical facts, events &c., what he has heard seen & read [illegible] in [illegible]; recollects [illegible] but not precisely [illegible] [illegible] occurred. Is a free, easy, ready & fluent talker & speaker, uses good language, seldom hesitates for words.

Adapts means to ends well, searches for causes, but has not a deep original, cause-discovering & applying mind; illustrates, discriminates, &c. well but not remarkably; is neither excels nor is deficient in pleasantness & ability to make himself agreeable, perceives character & motives from physiognomy, conversation &c., understands human nature, is suspicious & seldom deceived.

Sister Lucy, April 1850

When you come to dispose of my books, manuscripts, clothing &c. according to a provision in my will devolving the duty & trust upon you, would it not be well to keep Burton's Poems #18 yourself, & give Cushing's Manual #37 to Eliab, Josephus Works (now at H. S. Brown's with D'Aubigné's Life of Cromwell) to Isaac, Mitchell's Anc. Atlas No 46 to Isaac, - Pol. Class Book No. 51, Elements of Law No 49 } to Samuel W.F.

If it is not too much trouble & no one objects to it, I should like my French Testament sent to Isaiah Dole, Phillips Academy Andover Ms. — & some trifle (say Nevin's Prac. Thots or so; or Fr. Testament if it is found troublesome to send it to Dole) given to my much esteemed friend Margaret A. Crosby. Saturday Evening No. 57 would do if any one else wants Nevin's. If Sat. Eve. be careful to rub out the margin pencil marks.

I think it would be well to give my overcoat & thin coat (Croton Cloth) to Eliab, boots to Isaac, pocket book to Eliab, wallet to James R. Searles, my cushioned arm chair to Charles to sit in when he gets to be old. — My a/c Book (Ledger 12mo size) to Isaac when my affairs are settled & it is not wanted for that use.

Anything here is by no means meant to direct & control your action in the premises — I suppose I ~~am~~ have assigned you a very disagreeable & unwelcome task — but I hope you will accept & perform it as requested. I suppose you will wish to distribute as I should probably wish if I was there — the present circumstances will change very likely, in one degree.

Dear Joseph's last precious letter - written Apr. 1850 - not opened until after his death - One of his last efforts at using his pen -

Mrs. Lucy [illegible] Parker

Know all men by these presents, that I, Joseph M. Metcalf of Bangor in the County of Penobscot and State of Maine being in full possession of all my usual mental faculties and powers; in view of the certainties and uncertainties incident to human existence, and in view of the present unsound state of my bodily health, do make publish and declare this my last Will and Testament, and do hereby pronounce it of force as such.

My Books, Manuscripts, and Papers, (Books of account, Vouchers, and Muniments of Property excepted) I give and bequeath to my sister Mrs. Lucy H. Furber, in trust, to be by her properly distributed according to her good judgment, between the five, and my several kindred and friends.

~~I give and bequeath my watch to my~~ ~~brother Eliab W. Metcalf.~~ ~~nephew, James Rich Searles.~~

All the residue and remainder of my moneys, goods, chattels, and effects, rights and interests, I give and bequeath as follows, viz: one half thereof to my brother Isaac S. Metcalf, and one half thereof to my brother Eliab W. Metcalf, to the exclusion of all and singular my other relatives and heirs at law.

I hereby appoint the abovenamed Isaac and Eliab joint

executors of this my last and only valid Will and Testament, and in case of any difference or disagreement between them in relation thereto, I moreover appoint my brother in law Samuel W. Farber an umpire between them, whose decision in the case shall be final.

In witness whereof I have hereunto set my hand and seal this 31st day of August in the year of grace one thousand eight hundred and forty nine

J. M. Metcalf

Signed, and sealed, and acknowledged by the above named J. M. Metcalf in the presence of us who have in his presence hereunto subscribed our names as witnesses.

On account of the small amount of worldly possessions to be disposed of by this instrument, and because of the full confidence which I repose in my several relatives, that they will carry out my expressed wishes & intentions in all respects: I omit the due form of having this instrument authenticated by witnesses, & declaring it to be my wish that it receive full execution.

Dear Hart -

I believe I did not write to you last week at all. I have been in Berlin most of the week and wrote ten letters while I was there, eight of which had been long weighing on my mind. I am so much better for going to Berlin, anyway, also, I got considerable extra sleep, and heard Leland Powers do David Copperfield. Have you decided about going to Boston to the C.E. Convention? I hope you will see lots of friends of mine if you do. I am very glad they are to have no general meetings on Sunday at that Convention. It seemed a pity to cause so much Sunday street [illegible] and restaurant business.

When are you coming home? You will come to Ethel's wedding, anyway, of course, but perhaps that will have to be an extra trip. We want very much to see you, and to have you stay just as long as possible. [illegible]

My Dear Anna

I found your letter to mother, and read it
It was not right in me to read it, was it?
but I did - and perhaps I can help you. I must
try to, at any rate. I felt for a long
time as you say that you do, and I some-
times feel so now - so I know about it.
If you are not a Christian, why is it?
It surely is not because Jesus will not
help you, and does not love you. Just
remember that Jesus does love you - that
he always loves you and that he died to save
you - Though you do not get peace and
light for a long time, just hold on to
Jesus - and trust in him - Believe that he
loves you, and that he will hear your

prayers. He has promised to, and he surely will
"Hath he said it, and shall he not do it?"
"He is faithful that promised, who also
will do it." Just hold on to Jesus - do not
give up - You would rather have Jesus, than
anything else - then do not give up. Jesus
will come to you - He is just trying you,
to prove that you really do love him.
and to see if you will hold on, and
not give up. Pray to him and believe
He will hear you - He does love you.
"I have loved thee with an everlasting
love"
"In a little wrath have I hid my face
from thee for a moment, but with lov-
-ing kindness will I have mercy on thee"
Try to do something for Christ, to work for
him, and that will help you.
"Whatsoever ye do, in word or in deed,
do all in the name of the Lord Je-
-sus."
I will pray for you, and you must

...le sorry for yourself.

Marion.

P.S. Please answer this letter, and tell me how you feel.

Wellesley, Sep. 26. 1889.

My very dear A and A.

I congratulate you — Hurrah!
Boys forever! I hope that you have
all necessary help by this time, and
are doing well. It makes me
feel very large to be an aunt, and
I know Pater is proud to be a
grandfather. I wish I could go to
see you, or do something for you.
What a stronghold Mis Savage is.
I wanted to write immediately
when your letter came last night,
but this is my very busy day —
three Chemistry classes, Sessions
class, and Meeting of Directors of
Christian Association. By Thurs-
day evening I expect the week
nearly over. I must write several
letters this evening. I am, of course,
eager to hear from you again.

Lovingly [illegible]

Marion.

My very dear Annie - and the big A too.

I am afraid you think I am not very much interested in the little mother and the small brown-eyed boy, but I truly am, though it has been hard to find time to say so. Is Mrs Hefner with you now? I hope the baby has ceased to have colicky pains. Mrs Manly heard from Mrs Wattles that he was not very well - but it was some time ago and I trust it is no longer true. Do you, Annie, go out doors yet? I hear something about you every week through the home people, but I want more. They wrote me that Mr. Root is especially busy about now, with the Alumni Register or some such thing. Karl is on hand again now, however. Somebody must write me a postal card, at least. It has been cloudy and mostly rainy here all this week. I hope the clouds will be through with, so that the sun may shine for the bride on Monday. We 80's here all are going to Taunton to the wedding. We leave Boston at 12 and reach there at 1:05. can get back to Boston between 5 and 6. Maynard is coming up with Will, I believe. I suppose no one else of Will's family can be there, probably. Carrie says they are to have an open fireplace in their rooms at Baltimore - that is the only item I have learned about the new home. Maynard has a room in the same house.

I must go over to College in a few minutes, to look up some information, and to teach a class - my last Chemistry class for the week. but at 4:45 comes meeting of Directors of Christian Association, and at 7, meeting of the whole Association - and tomorrow, the Geology Quiz - so my duties for the week are to some extent ahead of me still - the very hardest of them - I always have trembling of knees and sickness of stomach in anticipation of Christian Association meeting - though the first and only one thus far went off very well -
Goodbye to you - Write and let me know just how you are -

With love -

Marion Metcalf -

Mrs Miller sends her "heartiest love and congratulations to the little mother and the little rootling -"

Elyria, May 23. 1898

Dear Annie May &c.-

There were many letters to write last night, and I did become tired and sleepy - so went to bed leaving your letter and Shad's unwritten - Of course I said to myself - "I will write them early in the morning," but of course the morning rushed past, filled with its labors, and now it is 1.45 P.M. - I swept and dusted the sitting room, washed and trimmed the asparagus which Keyes and Fel-ton cut made 3 loaves of brown bread, 2 loaves of cake and quite a batch of cookies - besides getting dinner - I had to make the cake & cookies to use up the sour cream - I put some of those little "chufer" nuts in the cake, and I believe it is good - You had better come home and get

some, Mary. They will have it for dessert tomorrow when I am gone to the S.S. Convention in Ridgeville. Uncle Eliab was here twice this morning. Eugene Mussey is thin-ing of buying this place. Offers 1000. cash for it. A letter from Elias Saturday enclosed telegram from W. from San Francisco. Address, Care 20th Kansas, San Francisco. We sent a letter to him there this morning.

Harry has set out 100 strawberry plants from the wood lot, here in the garden. Ike has had some trouble with his cow. She seems to like to put her foot into the pail, which is rather inconvenient. He has quite a long walk to the milk-ing ground, now that the river is so high. But $5 a month will be quite money for the boy Ike to earn

This pen does not behave very well, you see. I almost wish I had tried on with the old one.
The choir of the Lorain [illegible] Ch. exchanged with our quartet last evening. Mr [illegible] was one of them. There was a Mrs Farrell who sang two solos, very good, Harro said. I should have gone, if it had not been for letters. Keys and Nelson have gone barefooted two happy days already. All the boys were barefooted to work in the wet garden of Saturday. We have a woman engaged to clean house Thursday & Friday of this week, and Tues &c. next week till we get through if such time ever comes. Tis a weariness to the mind as well as the flesh. Farewell to you.
[illegible] Saturday evening made quite a good [illegible]

Address North Woodstock, N.H.
care Miss Eva Chandler.

Millbury, Mass.
July 3 - 1910

Dear Annie and Keyes and all the rest -

I had expected to be on Mt. Wachusett today, with my friend Miss Fuller, of the Chem. Lab. at Wellesley, but somehow or other, we have failed to make connection - I have heard nothing from her since a card written at Wellesley Hills two weeks ago today, and I do not know where she is or what has happened to her - So I'm staying here over Sunday and Fourth of July, and expect to leave here Tuesday morning for North Woodstock - trolley to Worcester, then take train at 9:35 on the White Mountains Division of the Boston and Maine R.R. and reach North Woodstock at 2:50 - I go through Concord, only 12 miles from Dunbarton - Do you think it's wrong for me not to go there? I seem to lack courage for any more short visits -

Thursday I spent the afternoon with Mrs. Jones, and Miss Sara Emerson in Worcester.

Miss Emerson has gone to be with Mrs Jones for 2 months, to give her nurse, companion, housekeeper, friend Mrs Simmons, a vacation. Mrs Jones is 83, and Mrs Simmons is 77, but very active and capable. I had supper with them, and then went to call at Myron Stickney's house - I thought very likely they had already gone to Maine, but found cousin Lizzie, Myron and the two children, Elizabeth (7 yrs old) and Larry (4) all at home. They had not had supper, and insisted on my sitting down with them and eating a big dish of delicious green peas from their garden. They are staying in Worcester to eat up these peas, they said - planning to go to Maine next week. They have a very pleasant home - a 2nd story apartment, with garden and chickens (on the ground.) The children are very bright and friendly - Malcolm Stickney is at the Cedar Point Laboratory this summer, at least, through July. Please tell the boys - maybe they'll see him. He expects to go to Maine in August. He is not married - who said he was? There is a family of Searles' here in Millbury - Deacon Searles in Uncle George's church, an old cousin of Jas. Searles and Cousin Lizzie Stickney. There are two daughters, and they seem to be very nice people - I met them at church, and at the Farewell Reception. Friday I went to Westboro, to see Cousin Lucy Pond, Cousin Lucy Brigham, and another cousin, whose name I did not get. Her name is Amelia, and she is a daughter of our mother's Aunt Martha Fay. There were four sisters, Arethusa, Lucy, Hannah and Martha - and 2 brothers Otis and David - all Brighams - Arethusa became Putnam, our grandmother - Lucy became Mrs Pond - Hannah, Mrs Paine (Mrs Johnson's mother) - Martha, Mrs Fay. Cousin Lucy Brigham is daughter of Otis, if I remember rightly - She's a lovely lady, 77 years old, but looking not more than 60. Lucy Pond is 71 or 2 and is very interesting and well read. Westboro is a beautiful village: not so much so as Wellesley, however.

Lucy Pond has a very comfortable house, with modern conveniences recently put in. She rents the 2nd floor to a family - has a lady friend Miss Hathorn, who lives with her - They took me out to a nearby boarding house kept by Miss Hathorn's sister, for dinner - and I left before suppertime - The trolley ride from Worcester to Westboro is very pretty - about an hour long -, and 20 cents fare -

The family here expect to get away to the new home in Worcester, in about 2 weeks, I think - They can take their own time about leaving, but of course they will be glad to get it over with - Uncle Geo has packed about all his books, but aside from that they have not begun tearing up much - It is hard to leave, and the people feel their going very deeply. There were many tears the last Sunday - Today the first candidate preached and Uncle George stayed here in the hammock while the rest of us went to church and Sunday School - It's a very warm day -

Fare you well - Marion Metcalf -

I think you knew Miss Chandler, who taught Math, three years and more for the
Miss Sawyer [illegible]

Dear Annie:

It seems a long time since we have seen any of our [illegible]. Aunt Maria said that you brought Little Marion over to Miss Hattie Knight's to see her. We are thinking that you will soon bring her over here to see us. She said the wound had begun to heal. We long to see you both and all. I taught in the High School on Tuesday. Fanny, Eva Lee, and Myrtle Rhinehart on only ten minutes' notice for all the classes coming right along so that there was no time for any preparation whatever. It was rather fun, in spite of all such drawbacks. We have had no breakfast in this house since

last Monday morning - the family voted to vote, Chas. Keyes and Wilson dissenting, to try the plan for one week - The matter will come up again tomorrow therefore. It is a great scheme - it saves so much work - We feel very hopeful even about the housecleaning if this can continue - Harry, Nettie and I are solid in its favor and I think Ely is pretty sure to vote for it too - Don't be afraid to come and see us. You can have some breakfast, as much as you want - Chas goes into the pantry every morning - I have given Keyes and Wilson some bread and sometimes a cup of milk, almost

every morning - I have always giv-
-en it to them if they asked for it-
They forgot it sometimes.

you, Mary? We are getting
homesick for you once again
and I should think you must
need some washing done -
Farewell to you, with love

Dear Annie -

How is the blessed baby? Mays says he thinks she went to sleep better last night. Has her cough begun to go away? You did not find her any worse off for your leaving her on Wednesday, did you? Lizzie Smith seems to be doing very well - keeps bright and brisk. She went to church and Sunday school today. Frank Smith, from Vermont, made us a very pleasant call yesterday. He is a big tall fellow, with a very companionable [illegible]. He says Collins, his brother, is teaching, in a grammar school. John and Frank are both in banks. Lizzie has been alone, with the other Lizzie, the girl, for the last three days. We took her some whipped cream on Friday. We have much of that, these days, and take pleasure therein. We have not heard a word about Minnie. I want Mays to hunt out [illegible] and look her up, if he has time and if you can find out her number. [illegible]

in Mattie's name, and [illegible] they
live in the state-
Mr P. [illegible] has not arrived
[illegible]. Hope he means to
come on Friday - he gave notice
of him in church to day - The meet-
ing is to be at Mr [illegible] [illegible]
the new house.
It is very evident that Mr [illegible] likes
his work in Oberlin and that it is
doing him good. We are all very
glad about it.
Good night. I must write to some
of the letters we have found a
very satisfactory [illegible] [illegible]
[illegible] is as glad to get the work as
we are to find her - and her husband
when he comes with the clothes [illegible]
[illegible] home a faithful [illegible] to-
mother and [illegible] [illegible] [illegible]
Farewell - Mamma -

Dear - Eunice - and May - hew.

I congratulate you on being through with Colonial Virginia. How often do you have a paper in the Club? I am glad I do not belong to any club - I could not write papers - I am absolutely unintellectual, as thou very well knowest.

It is getting so late that to get Marion to bed sooner I switched her off to writing to Harold + I adopted you and May because you are easier. See the laziness of me - as well as contrariness? I never do just what I ought to do. Marion seems to say that the only thing she had to say was to tell Annie that maybe she would come over there sometime this week and bring Mrs. Bertha Erne Schnearer. She is staying with her sisters here while her foolish husband goes to the Klondike.

I forgot to ask her if she was coming over with Mayo to hear the Junior Ex.
We ought to know if you can so as to get a ticket for you.
Irene Nelson has begun to make some brownies for you.
I am probably going to hold the E.C.S. down Tuesday while Miss Leav-itt goes to Cleveland.
Did the grass get ten shades greener in Oberlin on Saturday afternoon as it did here. Cora Baker says there are hepaticas in blossom down on the Gulf road. I have seen some with the buds just burst & the green heads showing through but that is the most. We have pussy willows from Beebe's woods and in the garden Scylla & crocuses not Eng. bits or any such. Come over and see them & have some.
Marian has finished her letter to Howard so I can go to bed. She is going to put in here the letter that came

from him last week. It might go to John afterward maybe. He will probably write Hart if he hasn't already but won't some of the letter tells quite a many things in him.

It is said that at his lecture Friday night Prof. Wright talked quite lengthy and very complimentary about John. None of us were there. We mostly go to bed and even as I went the sleep in church this morning.

Jim wants to stop & go to bed -

Elyria, Ohio - June 23. 1891.

Beloved family -

I have no words strong enough to express my enjoyment of the family letter this time - I have risen early in the morning to show my appreciation of it - it is not yet 6 A.M. - We are an early rising family. Stevie and baby Nelson are the only members still in bed, and for Nelson such drowsiness is all too unusual. We are having what we call warm weather, perhaps Ethel or even Wilder would not call it so, but it seems enough for my endurance. I look forward with some dread to living in Virginia next year. Do you all know that I have accepted a position at Hampton, to teach the Bible mostly - salary $300 - pr. yr. and expenses - Do not scoff at me. It is a beautiful place to live, and as important a work as there is to be done anywhere in the country - You must all take your outings down at Old Point Comfort in the Spring of the year - every year, and we will have an oyster roast on the beach - I shall leave Elyria with much regret - it is a good place, with many interesting and desirable people in it, and plenty of work that needs to be done - It is true, I have vainly longed for friends in Elyria, finding none - There does not seem to be anybody anywhere near my age - I have outlived my generation and not been able to get into any other -

Evening - Aunt Anna and I are planning to go [illegible]

the great Christian Endeavor train, to Minneapo-
-lis, and thence to Northfield, to see Carrie and Will
and Uncle Samuel and the many others - We
are a little disappointed today to learn that no
stopovers are allowed on the tickets, as we can-
-not go to see the Rev. Will DeWitt nor the
druggist Frank DeWitt nor any such in Chica-
-go, as we had both been specially invited to do -
We expect to start at 7:10 A. M - Wednesday,
July 8 - the rates are just one fare for the
round trip - tickets good to return until Aug. 26 -
The drop of bitterness in the cup of bliss is
that that may be just the time that Wilder
reaches Ohio again on his way back, and my
visit with him on his way East was all too brief -
When shall we see Harl? Your welcome is all
ready, Harl - so is your bed - I see from Carrie's
letter that she means to put all the family
to bed when they go to see her - We expect Ethel Thurs-
-day - day after tomorrow - I think we are almost
as eager for it as she is - She is on her way now,
I suppose - This is Commencement day at
Wellesley - the first I have missed for many
years - I hope they have had as beautiful a day
as we have enjoyed here -
Miss Miss Williams and I are having a terrible time
trying to find some officers for the Y. P. S. C. E - she exclaim-
-ed in horror at the idea that there would be no
McCalf available for office next year - Goodnight, all - Mamma -

My dear Marion.

I was very glad of your letter the other day and think it was a great deal for one to do in the midst of all your cares.

It made me rather to know that the chair has been a comfort to your father for I do not please him to sit to provide himself with comfort and I know expected doing

know that my feelings date to the time when so
kindly carried me into school — I believe it existed
long before that, when he was superintendent of the
Sabbath School and aroused the warm friendship
of all his scholars. The other day Frank Penney
spoke so tenderly of him, and it was such pleasure
expressed frequently by my old friends. I cherished
until a few years ago & others since are asked to it when
I felt it would like, a little testament given by your
father for regular attendance at S.S. in it was the
text "Be ye also in and know." I earnestly wish he would
pray for me that it may not be wasted. I have
often wished to tell you, Marjorie how I appreciated
your efforts in the Sunday School and all where, where

anything more than has become the fact that we provided a lounging place for our Critical—I assure you all that was necessary was the mention of it, for my one was more than glad to do that little, giving to me the very same hand in which your father was held in the Church life.

I have always had a warm spot in my heart for your dear father, and am so grateful to him for feeling "first of all onwards" in me.

It was a pleasure to meet him in the parish, at church or wherever it might be. I do not

there was nothing to notice in
the atmosphere of our dead,
cold church. It is individual-
responsibility which makes it so,
and I am not to make it
blame for it as the most, per-
haps more so. It is hard for any
minister to come into that at-
mosphere and do good work.

Please give my best kindest
regards to your father, and the
committee for their kindness to
me. I know he is anxious that
we [illegible] that there was some-
thing I could do to raise in
addition to all which is so
well done by his faithful
[illegible]. Tell him not to
[illegible] [illegible] and who should
you address me as [illegible]?

Yours with love
Helen [illegible]

Beloved for thy father's sake.

The pamphlet you were so kind to send me was received in due time, and has been read three times by me. and we shall treasure it as a rich legacy of my best departed Friend, whom I shall often recall to remembrance as always faithful and true — the perfect man. I trust that all his Children will worthily honor their loved and honored parents. The pamphlet is a source of inspiration to myself to strive for the same high ideal as therein so well expressed of my beloved friend. Accept sincere thanks, for so kindly remembering me. My dear Miss Metcalf.

Papa asked me, nearly a month ago, to answer your letter of June 2nd and does not know yet that I have neglected it or I am sure he would have written to you long ago. You probably have read of the riot we have had in this country again and Papa was on the grand jury when he should have answered your letter so asked me to

write you.
In reference to the note for one thousand dollars, he wished me to tell you that the placer mine, in which he has been interested for several years, is now in the hands of a mining broker and about to be sold as we ~~now~~ expect and Papa hopes soon to pay the note.
You asked in your letter to let you know how we are prospering in general.
That is really very hard to answer at present and we wont know until after these rioters have been tried.
If, after the trials, a few dozen are hanged we hope to be rather prosperous as there is no better country on earth

for making money but if
the union miners and
their sympathizers ever are
able to rule this part of the
country again we shall have
to move out. We are only wait-
ing for the trials to end, which
will be months, to know what
to do. I know in this one
letter, I could not make you
understand what sort of a
country this has been since
the riots of '92 especially and
to what a great extent lawless-
ness has prevailed.
You perhaps know we had
been boycotted since '92
by the miners union and
that not only means the
miners but their sympathizers
and those forced to act as
sympathizers for the sake

of their business.
During this coming week I will try to send some of the papers to you giving accounts of the riots. I had intended to send some long ago to Aunt Sarah and if you get any will you please let her see them.

There is very little to tell of the family individually.
Myrta closed a very successful three month's term of school June 23rd her first public school work, though she had had about a year's kindergarten work.

Dear Friend

In reply to an inquiry made at the Savings Bank we learn that several months rent that we supposed had been paid them for our interest a/c has not been so credited. We wish that you would go over your fathers a/c and give us statement of this a/c, also of the rents from Lorain property, for years 92 93 94 95 &96 for which no report has been rendered, & during which time Mrs Gaylord has not recd one penny of income. We had supposed that that the income had been applied to payment of a debt but have just learned to the contrary. In 1891 Mrs Gaylord recd a little less than $40. for her share after paying taxes and nothing since . There has seemed to be a disposition to make her share of the property pay all the expensesand let the others bear none of it . We must therefore ask that an A/C of receipts and disbursements be made that we May know what is due. We trust that you will be able to get at the facts with little trouble but must have some knowledge of what has been done with these receipts. I write you at Hattie s request as she feels much troubled over the matter.

Very Truly Yours

Dear Marion:

I suppose Lizzie DeWitt and Hattie Gaylord are at least technically correct, and that the rent from the Sheffield Farm which I paid to your Father should be returned in part to them in the proportion of 2/3 to Lizzie & 1/3 to Hattie.

My first payment to your Father was on Oct. 11, 1897, for oats, & amounted to $6.64. This I think was before your Father made his final report, and was included in that. You can easily verify this by the report itself.

My second payment to your Father was on Jan. 6, 1898, $68.50, for 1/2 back rent received from Gideon & James Walton. If this was not included in the final account, and if they do not wish to allow it upon your Father's claim for services, it should be repaid in the proportion I have named. The $7.30 which you have received from Carrie Mussey, since I came away, should be placed at their disposal in the same way.

I do not fully understand about your Father's compensation as Executor. If he filed his final

account, making no charge for his services or a smaller charge than the law allows, there is of course no legal claim for further compensation.

Probably it is best to pay over to them the total amount of $68.50 and 7.30 = $75.80 — and use your judgment or follow your own inclination as to saying anything to Lizzie & Hattie about further compensation. Their legal right to it is unquestioned.

I am glad that Lizzie has placed her affairs in Mr. Caskey's hands. He is an excellent man to care for them — a careful, conservative business man and a good lawyer and a good friend to her.

It now looks a good deal as if Wilder would be called out with his regiment — but everything is uncertain. If he should go, we shall want Charley here. We will send word as soon as we know.

I have made one trip through South Eastern Kansas & into Oklahoma, and another to Wellington, El Dorado & Eureka. Have ridden with carriage & stage about 250 miles the past month. Both Wilder & I are in the best of health and keep busy all the time.

Love to all

Dear Miss Metcalf,
When my older sister began to look up our ancestors I did not have as much sympathy with her efforts as I might to have had, or so much interest. But the interest has grown as she has added to our lists and now I shall ever be on the out look for chances relations where ever I may go.
I know she will be greatly interested in this reaching out on my part, as she has felt that I was the only one of our own family really interested.

I am. Sincerely yours. (I can't put in all the children — only our line down.)

My Dear Miss Metcalf:

For some years I have been tracing up the genealogy of the southern branch of the Metcalf family. I was informed by H. T. Metcalf of Providence R.I. (who secured all the papers of the late Martin Metcalf, of Battle Creek, Mich.) that there were a family of Metcalfs living in Elyria, O. who had some data bearing on the <u>southern branch</u> of the <u>Metcalf</u> family. As I have a copy of the genealogy of Isaac Metcalf, and seeing that all correspondence should be addressed to you, I infered at once, that probably you were the very person to whom I should write. If you have any <u>data</u>, of <u>any character</u>, relative to the Va, Md, Del, Ky + Geo + Tenn Metcalfs, will you kindly give me a copy. Thanking you in advance for any information you may give, I remain,

Sincerely Yours

My dear Sir:

I have just read the noble tribute to your father in the 'Republican', which came under your envelope - I was thinking about him a few days since for his last letter to me sounded like a farewell, probably it was on my birthday, while thinking over the past = and that was on the 19th. He was four years my senior -

I sympathise with you and the rest of his large family in this affliction. Such men are not everywhere found, or have such a record - May you follow his example is the best wish I can offer -

I am told that I have a weak heart but I have not suffered with it as I judge my old classmate did with his. But I have no reason to expect that my years will equal his, to say nothing of other comparisons that might be made.

I thank you for remembering me, and will cherish his memory.

With my kindest regards to his family.

My Dear Friend; Beloved for your father's sake.

The paper you were so good to send me was duly recd giving Notice of the decease of your honored father who was one of my best and truest friends during the years from Aug. 1st 1851 to [illegible] of 1855 I think. I first met him Aug 1st 1851 a mile North of Big Muddy river, and we fell in love with each other the very first day and we slept together that night. In Fall of '52 he became [illegible] Engr of 2nd Division; from Big Muddy to Centralia, over 50 miles and he chose me for his Assistant. That Winter and Spring he and your Mother boarded in my family. Your Mother was one of the very best women I ever knew, and they both were beloved by all. So now they are again happily reunited in the better land. Yet the pleasant memories of the past still linger with us. From April 1855 to 1886 I was Station Agent at Tamaroa 8 miles N. of Du Quoin, and as your father passed there a few times, he would step off for a moment and greet me heartily. Great is your loss, and may the Lord bless and comfort you all. I was six years, 23 days older than your father, and not enjoying good health. Love to all the family of my faithful friend. My dear Marion

We are in receipt today of your note to Abigail enclosed in a letter from her telling us of the death of your good father. It is the first word of news that we have heard from Elyria since we were there in June and sad news it is indeed.
You can ~~that~~ truly say "Father passed into rest" the Rest that remaineth unto those who love God. Of all my acquaintance I know of no family of children who can honor their fathers memory more than you can nor do I know of any one whose friendship and love I shall miss more than I shall his.
From our very first acquaintance more than forty years ago I have looked up to him as an example of rectitude and honorable upright living and christian manhood and it saddens me more than I can tell to hear that he is not.
God surely has taken him to Himself and the memory is ours I have the memory of many loved ones gone before My own father & mother your mother of sweet memory and now He is gone across the river. You have our sympathy and we join with you in Spirit though we could not be present in body in laying his remains away to await the resurrection day.
Your Aunt Jennie has been laid up with a large boil on her right hand and is not able to write. She joins with Christine & I in all messages of love and sympathy to yourself and your Sisters and brothers.

My dear Miss M – Enclosed please find one dollar and three postage stamps – I feel greatly indebted to you and your honored Father for the genealogy and its most valuable information concerning my Metcalf Ancestry. Am doubly interested in it because my name is Melatiah. and which came to me through my great grand-mother Melatiah Metcalf dau. of Samuel^{4} (Eleazar^{3}, Michael^{2} Michael^{1}) who m. John Everett of Foxboro for her 2nd husband. and had twin sons whom she named after herself Melatiah and Metcalf – Metcalf was my grandfather. She was a woman of uncommon strength of character – had Eleven children of her own and brought up five children of her second husband by a former wife. and adopted two more and Educated four of her sons at college. She married a third time –

Dear Miss Metcalf,

Several months ago, while on a business trip to Lawrence, my brother sought an interview with your brother - for the purpose of finding out whether we were related. I believe that they came to the conclusion that it was the same family originally - the Metcalfs of Yorkshire, England but that your family was part of the Northern branch, and ours belonging to the Southern branch

here in America. Our first ancestor in this country was John Metcalfe (son of Francis Metcalfe of Yorkshire, Eng.) who came over to this country about 1650 or perhaps a little later, and who for many years was a teacher in the Virginia Colony.

He married a Welsh woman Diana Watkins - and of their children - we know of but two - John, my great-great-grandfather, and Martha who married Wm. Pickett and became the ancestress of the "Fighting Picketts." Your brother by reason of his fighting ability ought to belong to us. He told Brother Melville that his father had gathered up much

that was interesting concerning
the family, and that if I sent
to you - you would send me
one of the pamphlets for the
enclosed $1. I think, he said,
what you have is concerning
the family in England before
any of them came to America.

I have been much interested
in looking up family history
this past winter, and have
learned considerable regarding
all branches of the family - It has
been an interesting study - but it
does seem to me, that these
people who lived before us, left
very little record behind - Were
it not for an occasional deed
recorded at the County Court-

or an old family bible, we should be entirely in the dark. However my great-great grandfather from the records at Richmond was a soldier of the Revolution, and one of his sons, Thomas, was elected Governor of Kentucky in 1829, so I ought n't to complain a great deal.

If you have anything which will enlighten me in regard to the name we bear. I should be so glad to have it.

Awaiting anxiously a reply-
I remain

Yours sincerely-

Dear Sir: I have in my possession a copy of a letter written by the late Martin Metcalf of Battle Creek. In it are some data written by you and it contains the following ... "The descendents of Bryan[12] Metcalf as given by Eliab Metcalf of Elyria Ohio Leonard[13] 1st son, Vincent[14] Michael[15] Vincent[16] Michael[17] born 1585 Emigrant 1637."

Can you explain this paragraph to me? Do you mean that Bryan Metcalf had all these children? Where is your authority? Was Michael Metcalf the Emigrant a son of Bryan? I thought he was a descendant and son of Rev. Leonard of Tatterford and born 1587. &c. &c. I wrote some time ago to you or your family but do not remember having touched upon this point. Shall be glad to work with you in this matter.

Yours very respectfully,

Dear Cousin (if you will permit me to address you thus):

I was grieved to learn that your father, Mr. I. S. Metcalf, is dead. I have very few near relatives and I had grown to think of him as one of the most loved and respected. I have received occasional letters from him ever since my father's death in 1881. He told me many things about the Metcalf race, which I was glad and proud to know; and of his own family their attainments and work — he wrote freely; which made me feel almost acquainted with them,

and very much interested in them. Of himself he seldom wrote; and I am very glad to receive from you the paper which speaks so appreciatively of him as a man and a citizen. Remembering the kind things that Oberlin people have told me concerning him I would expect such words to be written of him now.

Permit me to add my word of admiration and respect for this good man who has gone; and of sympathy for you all who have lost a dear father and friend.

I am sincerely yours,

Dear Cousin Marion

I received the paper you sent me relating to your Father's death some time ago and am ashamed that I should have allowed so much time to pass before writing you.

I am a very very poor hand to offer consolation to anyone in such matters but I do sympathize with you all with all my heart. I had been intending for some time writing to your Father and the suddenness with which this announcement came to me gave me a great shock. I did not know your Father so well as some others of our family [illegible]

I feel the loss of his friendship very deeply.

I hope that his going home may not be the end of the pleasant relations that have always existed between us. And I should be very glad indeed to hear from you or any others of the family whenever you care to write and I will try and not let so long time pass again in silence.

Very Sincerely

[illegible]

Dover, Norfolk Co. Mass. March 4th, 1898.

My Dear Miss Marion Metcalf:-

I wish to thank you for sending me the account of your father's death & burial, with a brief account of his life. It was the first intimation that he had passed away. I had been looking for a letter from him in answer from one of mine. I was about writing him again when your paper came. It was very sad to me. I had known your father since I was 13 years old. We went to the same church, & to the High School together. We were class-mates together in College.

I had not seen him since leaving College until we met in Brunswick at the Centennial Celebration. His after life was but the fulfilment of the promise of his boyhood. He had written me of a dizziness that had troubled him, & I think of a heart difficulty. I valued him as a friend very highly.

I presume you have mailed a paper similar to that sent me, to Prof. Little of Bowdoin College. He is Librarian & keeps careful accounts of all graduates. I wish you would also send one to Rev. Joshua Young, D.D. Groton, Mass. He was with us in High School, & some classes before us in College. We were together in Brunswick when he was there last, & walked side by side in procession.

I sympathize most deeply with you in your great loss,& yet we know it is his gain. It was a noble life well rounded out & beautifully ended.

When you are at leisure, I would be glad to get from you fuller particulars about his last sickness & death.

Please give my sympathies to the other members of your family in your affliction.

Yours truly,

Edwin Leonard.

Dear Sir

I See by the last Advance that your Father has passed away. It was my privilege to be associated with him & your devoted mother for two or three years as Civil Engineer in Southern Ills in the early fifties It was through his Kindness that I secd the position - his Sister Mrs Furber was a Special friend of ours being in our family as boarder for some time in Hampden Me. I owe a great debt to your good father & mother for the interest they took in me & the good influence they exerted over me for I was not then a Christian & peculiarly subject to the allurements [illegible] [illegible] titude which a young man

ments in that kind of a life
When I left Southern Ills & came to Kans
I lost track of your father for some
time but finally learned that he had
Settled at Elmira. I hear that your
mother passed to her rest several
years ago. I would be very glad
to form the aquaintance of a son
of my old time friends & benefactors
I would deem it a very great
pleasure to have a visit from you
I have been living in Kans since 1855
but the last few years we have been in
Colo. for my daughters health. we expect
to be on the farm near Valley Falls this
Summer. My family will arrive in a few
weeks. I have a brother in law in Lawrence
Mr A. H. Whitcomb. & Revs Cordley &
Richardson are old time friends
Hoping to hear from you
I am Yours Truly

Dover, Norfolk Co. Mass. March 25th, 1898.

My Dear Miss Marion Metcalf:-

Many thanks for your most interesting letter of the 14th inst. with the previous newspaper account of your father, & the sermon by your pastor, rec'd a few days ago. Your letter gave me great satisfaction, as did the account in the paper & I think your minister has very happily portrayed the marked excellences of his character. I prize them all highly. I take this 46th anniversary of my ordination to write you. I have been here but six years in June. I was 16 & one half years over a church in Conn. It was Morris, formerly Litchfield South Farms. Henry Ward Beecher was born only about 4 miles from me, & his brother Edward was prepared for college at the Morris Academy. While in Conn. your father wrote me of you, & that you were in Wellesley College, & invited me to call on you when I was in Boston. As I came on seldom more than once in a year, & made but a brief stop then, & had relatives that claimed all my leisure time then, I failed to see you. Dover is the last town in Norfolk Co. towards Middlesex Co.

Since receiving your note, I have recalled your father to mind as I first knew him. I think he must have come to Bangor not far from 1840 Or 1841. If 1840, he would have been 17 years old, while I was 13. Of course I looked up to him as one of the older boys at the High School. He lived with Asa Walker, a

lawyer, whose house was about half way down the hill past the 1st Baptist Church. His first wife was a very nice little woman & your father told me, a friend of his mother. I can recall your father's countenance distinctly. He had what the boys call a cow-lick on one side of his forehead. I presume he retained it later in life. He had a firm mouth, but an attractive one. His chin was also firm. I think his face was more attractive before he wore whiskers, than since. In his gait there was a peculiarity that I clearly recall. Instead of a stoop at his shoulders, he was inclined to lean forward at his hips, something as the ladies cultivated, in what used to be called a Grecian bend. This is such as we all are inclined to take in walking up hill. He was always diligent in his studies. I was particularly attracted to him, & he seemed to notice me, or I thought he did. We attended the same church on Sunday. I think he entered college in his Sophomore year. I valued him very highly as a consistent christian. He was a man who formed his own opinions, & had the faith in his convictions. His opinions often differed from others, but he was never intolerant. After graduation, I never saw him until the centennial Commencement at Brunswick. I did not recognize him at first, but as soon as he spoke, we knew each other. I valued his letters very highly. His picture has been on my mantel ever since he sent it to me. I look at it almost every day. He seemed to feel the loss of his wife very much. I fear that must have helped to

break him down. I remember that while at the High School, he studied surveying with great diligence.

Asa Walker was a man of peculiarities. Quite a good off-hand speaker. After his first wife died, a widow lady of reputed means persuaded him to marry her. I fear it was not quite a happy marriage. He removed to Portland Oregon, I think, & the report was that he had drowned himself. He had a small obelisk put at his first wife's grave, & it was covered with poetry. He had no children. I love to look back to those school days & my college life. It seems but yesterday.

I have one son in the furniture business in Cincinnati, & another son, who is 1st Junior Assistant at McLean Hospital, near Boston. He had previously been a year in similar position at Worcester Lunatic Hospital. He is now planning to start in general practise in Sept. I have been planning to lay aside my pastorate here this Fall, & move with him into the near suburbs of Boston so that we can assist him in his first start, & then be near him as we grow older. The place we are inclined to take is Melrose Highlands. I am now 71 years old, & shall be glad to lay aside the cares of a pastorate & pass a quiet life.

I shall always be glad to hear from you or any of your brothers or sisters for your father's sake. If you ever find the way to Boston, I should be glad to welcome you to our house.

I remain, Yours truly,

Edwin Leonard.

Jan. 1. 1883.

Miss Mary Monroe, of Oberlin, Ohio, late of Brazil, and still later, the delight of the elite of Washington circles, will essay to receive her friends in the Reception Room from 4 to 10 P.M., and will be assisted by Dr. E. H. Jones, Misses Hawes, Chandler, Morgan, Foster, Shafer, Metcalf and Mrs. McCoy.

Dr. E. H. Jones of Oxford, more recently of Cambridge assisted by the distinguished writer, Mrs. Anna M. McCoy and a coterie of literary stars of the first magnitude among whom we may mention Misses Foster, Morgan, Monroe, Hawes, Chandler, Shafer and Metcalf, will be glad to receive her many friends in this vicinity, at No. 1. Centre Sq. College Place, Wellesley, from 4 to 10 P.M.

Professorin Anne Eugenia Felicia Morgan of wide European reputation, will be in a state of receptivity for the good of her infinite benignity peculiarly her own, from 4 to 10 P.M. in the salon adjacent to the palm environment, in fellowship with the following parties - Mrs. McCoy, Dr. E. H. Jones, Misses Hawes, Foster, Chandler, Monroe, Shafer and Metcalf.

Miss Harriet Hawes, well known among us as the guardian of pedagogical bibliography will close her classic alcove from 4 to 10 P.M. in order to receive her friends with Misses Morgan, Shafer, Chandler, Metcalf, Foster, Dr. E. H. Jones ~~and~~ Mrs. Anna Maria McCoy and Miss Monroe, at the grand entrance to the Appian Way.

Professor Helen Almira Shafer, the constant factor in our delightful circle, will receive incalculable pleasure from the convergence of her friends near the north focus of the palm ellipse from 4 to 10 P.M. Washington time. She will be assisted by a quaternion of friends, Misses Hawes and Morgan, Mrs. McCoy and Dr. E. H. Jones, also by the well known

Reid, Misses Moore, Hunt, and Metcalf, and the incomparable unit Miss Florence Foster, a relative of the Dr. Foster who went to Gloucester "in a shower of rain" - we cannot help remarking that in this distinguished combination and [illegible] is [illegible].

Mrs. Anna Miriam McCoy of Belvidere, whose recent literary productions have attracted the interest of [illegible] and [illegible] from the sounding shores of the Atlantic to the Golden Gate, from the cities of the Sandwich Islands to the plains of the Zululand and from Greenland's icy mountains to India's coral strand, will give a conversazione at Abbotsford, Sir Walter Scott being present in a bust, Dr. E. H. Jones, the distin-guished homeopathist in attendance. Mrs. McCoy will be assisted by her circle of close friends Misses Shafer, Chandler, Moore, Foster, Hunt, Morgan and Metcalf.

Miss Ida Chandler, the fair resident of Diamond Stage, who is attending the [illegible] in [illegible] has [illegible] within a circumscribed sphere radiates the infinite witchery of her youthful charms on all who come within the range of her attraction. Though attracted to many other points she has finally decided to receive at the same locus and [illegible] as Prof. Shafer and her confluents and [illegible], Dr. E. H. Jones, Mrs. A. M. McCoy, Misses Hunt, Metcalf, Moore, Foster and Morgan.

Miss Mary Metcalf, B. A. A. 2 O, who has recently returned from Auburn Hill, is also spending the [illegible] season in our city, her old home, and will be glad to renew her affinities here. The addition of such an element to the constituents of our society will set in motion [illegible] our social molecules and precipitate some of them at her feet. She prefers to receive her friends in

her old haunt, the reception room of Wellesley College, from 4 to 10 P.M. - where she will be assisted by Misses Chandler, Hems, Monroe and Foster: Prof's. Helen Almira Shafer, and Anne Eugenia Felicia Morgan, Dr. E. H. Jones and Mrs. Ammeline McCoy -

---

This reception, with the preparations for it, occupied most of the day - A box from home arrived at night, containing this book, among other things - especially a box of butter scotch -
We had a little watchmeeting in the reception room Sunday evening from 11:30 - 12:10 -

Jan. 2 - Another bright, beautiful day - Miss Chandler and I put No. 102 in order, preparatory to leaving it - Carrie Cummings arrived at 2:43 - I went to see Miss Hattie Townshend and Marion Sheldon at the village school - Marion Marsh returned - I wrote letters to Annie, Harl and Harry - received letters from Annie and Alice Leonard - card from Cora Harlow - Emily Murdoch stays with me tonight in No. 102 -

Jan. 3 - Fine weather still - Lottie came back this morning - We finished our gifts for the domestic workers and hung them on their door knobs - Studied some on the Cl compounds - wrote to Alice Leonard - Went to prayermeeting in the village in the evening - At Waban Cottage again - nearly all the family back, and in good spirits - Rec'd an Etiquette Book from the Department - also "Lore of Books" and two soap images - Miss Emerson returned tonight.

Read poem "e. munimus" [?] humorous at breakfast on the morning of Jan. 1, 1893 - received with loud applause.

Jan. 4. Ben. F. Butler was inaugurated Gov. of Mass.
Fair weather. made a very long address.
Cold College opened - girls nearly all back -
Went to sewing society at Mrs. Shattuck's - and had a very good time. rode home with some South Natick people -, reaching here about ~~ten~~ o'clock. The lady who brought me home is Mr. Edward's daughter. Received a letter from Pater this morning - Prof. Niles gave his first Lecture at the College this evening -

Jan. 5. Snow. Taught three classes today and began my Qualitative Analysis work. Attended Prof. Niles' Geology lecture in the evening - Miss Chandler and I did not read Oliver Twist together at 2:05 as we had planned - no letters - Read "Scientific Philanthropy" and "Gospel of Recreation" in Popular Science Monthly - We took the Etiquette Book to the lunch table and endeavored to follow its directions -

Jan. 6. Snow all day - After 9:50 class, went to Boston to Annual Meeting of Intercollegiate Alumnae Association, at the Vendome - a pleasant meeting and a good lunch - Left there soon after 2:00, & went to see Edith at 170 W. Brookline St. - found her well and enjoyed a visit with her. Came out on the 6:30 train - Dean Huntington, of Boston University, who preaches at the College tomorrow, rode up in the coach with me - May Ellis arrived this afternoon -

Jan. 7. Sunday - Snow has stopped - clear towards night. and warmer. Mr. Cowan's text was I Tim. 2.5. "One mediator between God and man, the man Christ Jesus". My five boys were all at Sunday School - the third Sunday that Will Tailby has been present - Louis Ellis seemed quite interested. Miss Hodgkins was here to dinner and talked of her own and Dr. Lyman's European experiences - Spent most of the evening singing hymns with May Ellis and Cora Harlow.

Jan. 8. Monday. Clear and warm. - Sent off letters to Pater, Ralph, Ethel and Nettie - Rec'd letter from Annie and Temperance Leaflet from Miss Guernsey. Spent most of the day at work in the Qualitative Analysis Laboratory, doing four unknowns. Concert this evening by the Boston Glee Club, assisted by two Ladies and one Baritone - I enjoyed the Concert very much as a whole, though the Soprano squealed and wore a very marvelous costume, of blue silk, pink silk and black velvet, not to mention pink artificial flowers. Lizzie Wallace is sick today -

Jan. 9. Colder - A Tuesday like other Tuesdays, hard - M. Marsh and I got out the things for the Cl experiments this morning. I attempted to give my 10:55 class a thunder and lightning quiz, and found out that they did not know anything, so to speak. We tried to make Prussian blue with various Mn compounds after 3:45. Went up to the College this evening for gymnastic appointment and afterwards to prayermeeting. Went to bed very soon after 9 o'clock.

Jan. 10. Snow. Blow. *6° below 0. Drifts. - Four letters this ~~morning~~ from Annie, John, Pater &c, Mame Olmsted (acknowledging Christmas card) - also invitation to Mr and Mrs Horton's golden wedding, next Tuesday. We missed the first coach this morning - rode to the depot & had to wait until the 8:25 coach, losing chapel. I rode down to visit also. 3 classes today and practised electrolysis of HCl. Wrote a letter to Jack this evening - Annie is elected for Latin Oration for Junior Ex. Three cheers! -

*This was on and Annie Wheeler both married today.

Jan. 11. Thurs. Clear and not very cold. - Taught classes this morning - quizzes on H, H_2O and H_2O_2 - as severe as possible - spent the afternoon in practicing the Cl experiments [illegible] success, but with an abundance of suffocation - Mr. Peloubet gave a talk this evening, instead of the regular prayermeeting - after it I went to Prof. Niles' lecture. No letters today - Mary Beattie's friend, Miss Potter, arrived at the College today. I have not yet seen her.

Jan. 12. Friday. Cold. - I's performed the [illegible] and 2:55 - they were quite successful, but rather suffocating [illegible]. Brought up my new waists from Miss Townsend this P.M. -

The [illegible] in the chapel at 3:15 - I could not go [illegible] subjects [illegible] &c.
[illegible]
[illegible]

Jan. 13. Snow [illegible]. [illegible]. 4 o'clock in the morning, having rabid [illegible]. | [illegible] meeting at the College, [illegible] after which I spent [illegible] I went to the [illegible] and the [illegible]

-works &c - Read Wagner's Chemical Technology -
and the Christian Union's remarks about Joseph
Cook's first Lecture - In the evening, went up to
prayermeeting, where Miss Krebs told something
about the terrible suffering from floods in her
native town - afterwards, to Prof. Niles' lecture.
Now I shall take a bath and go to bed - No time
yet to practice with the chest weights - No letters -

Friday - 19. HCl fountain in class today - not a perfect success -
Snowstorm Did Qual. Anal - work. Went to Mrs. Dana's to tea, with
Emily Clark and Carrie Cooke - Miss Lord could not go
on account of "meeting of Heads". Mr. Dana came for
us, and his man brought us back, in a sleigh -
I missed Prof. Niles' lecture by going to Mrs. Dana's -

Saturday 20. Taught class, tutored Miss Wardlaw - attended M.
Rain in Marsh's class - We all went to lunch together - Worked in
the evening, Lab. with M. Marsh - did not have good success - Went to
freezing the College in the evening to write the absences and study
as it fell - the Sunday School lesson - Beethoven Soc. were having a
meeting - the door was open and I heard Miss Trum-
-bull sing twice - Took from the Library "Adventures
of a Am. Consul Abroad", by Luigi Monti -
After return to the Cottage, read the Tribune and made
some equations in Qual. Anal - Letter from Alice
Leonard came this morning -

Sunday - 21 - A very good Sunday, though disagreeable weather and very
Thawing in bad walking - Church, Sunday School, and two meetings
A.M. in the evening - all good - Joined the Y.P.C.C. in the village -
Freezing a- Read Congregationalist, Gospel in All Lands &c in
-gain in P.M. the afternoon. Had a short sing in the evening after
Slippery and my return from prayermeeting. Mr. Smith walked
wet. up here, with me - Pauline and Hanna were at meeting also -

Monday. 22. A beautiful, cold, slippery day - Went to College in the morning and did my Qual. Anal. unknowns - Called at the Farmhouse on my way back. Kitty Jones and her mother were here to dinner - This afternoon and evening I have spent on the bed - Finished Martin Chuzzlewit, read "Adventures of an Am. Consul Abroad", by Luigi Monti, and studied my Chemistry lesson more or less - Letter from Annie this morning.

Tuesday. 23. Did not get up to breakfast, nor go to Chapel, but did hear all my classes today, besides going to Qual. Anal. class. Finished letter to Annie and made up equations for my unknown substances - I am getting behind in the Chemistry classes. I went across the lake twice today, and did not slip down.

Wednesday. Went to lunch early with Lottie - did Laboratory work - acid tests in Qual. Anal. Had pretty fireworks in the 1:15 and 2:55 classes. The children have struggled terribly over the problems given out yesterday - Went to the village with Minnie Triggin, and paid my debts - Went to prayermeeting at College in the evening, stopping on the way to see Miss Stratton and Miss Patterson whom I did not find at home - Spent the rest of the evening, after coming down, in looking the Chemistry problems handed in - Took John Halifax from the Library -

Thursday. 25. Day of Prayer for Colleges. Sermon by Dr. Alexander Mackenzie, Cambridge - Text. "Not by might, nor by power, but by my Spirit, saith the Lord of Hosts". We may have the Spirit by welcoming Him, and letting Him have His own way - yielding to his leadings always - At the evening meeting Dr. Mackenzie talked about the young ruler who came to Christ, and was told to go and sell all that he had and give to the poor. The point is that we must do whatever He commands - There was a meeting at seven to talk over plans for a Reading Club or some such thing, among the factory girls at South Natick - A social meeting has been appointed for Saturday night, in a room which Mr. Edwards offers us. Wrote letters to Jo Curtis, and Miss Mary Hosford -

Friday 26 Taught classes. corrected papers. called on Miss Patterson and Miss Stratton. went to meeting of Committee for the South Natick work, and to Prof. Niles' lecture. I had a letter from Harl this morning. very interesting indeed. wrote to Uncle George. Read some Oberlin Reviews, which Miss Monroe lent me, in one of which I learned that Jack's oration on Norse Mythology was "crude in thought, unfinished in style, but showed force and originality." Mrs. Joseph Cook spoke at 2:05 in Chapel.

Saturday. 27. Taught my class. attended Marion Marsh's class. corrected papers, practiced gymnastics, did Qual. Anal. Lab. work. Went to South Natick in the evening to the first meeting of what is now organized under the name of the Saturday Night Club. This first meeting seemed to be a success. We played games, talked and did business. I went with Miss Cooley, Miss Brown, Miss Lane and Mademoiselle Van Canteren.

Sunday. 28. Mr Covrain's sermon was on the text. "All have sinned, and come short of the glory of God." a very good sermon. Miss Cooley and Miss Brown came over in the afternoon to talk about a night school in South Natick. I read the Cong. and Gospel in All Lands and Wide Awake. sang in the evening with May Ellis, Cora Harlow and Maggie Hill. It is rumored that there is a panther loose in the vicinity. seen at Holliston.

Monday. 29 Cloudy. Snow in the evening. Pater's birthday. Swept, dusted, wrote a letter and practiced Browning experiments in the morning. After dinner, went over to Natick to carry the Pilgrim's Pilgrim to Lilla. made seven buttonholes for Kitty, staid to supper, and rode back in a bus with some ladies and gentlemen coming to the Lecture. Dr. and Mrs. Cook. Mrs Reynolds, Mrs. Talcott and an other gentleman, whose name I did not learn, though we were introduced. Went to Prof. Niles' lecture with Dr and Mrs Cook. it was very interesting and the views were beautiful. Kitty is engaged to Mr. Russel. Letter from Annie this morning. with a very short one from Pater also. Jack is to join the church next Communion. Urban Cottage has a clock at last.

Tuesday. Taught classes, Bromine experiments in P.M. - practiced gymnastics at 2 - did to 27 in Qual. Anal. - wrote a letter to Annie and went up in the evening to mail it. Looked over papers in the evening -

Wednesday Thaw. Classes. Gymnastics. Letters from Jack, Ethel, Pater. Miss Freeman sent for me and asked me to take Miss Chapin's Bible Class, a Special Section studying the prophets. Lottie insisted that if I did she would take one of my classes - we fought about it and finally went to Miss Shafer to have it settled - she will probably take the 1:15 class one day in the week. Miss Freeman and Miss Whiting started today to spend a week in visiting Colleges - Letters from Pater, Ethel and John.

Some lightning this evening -

Thurs. Feb. 1. Clear and cold. Walked to College across the ice and fell down once in the afternoon and once in the evening - Practiced gymnastics at 2 - with Miss Chandler, Cummings and Emerson. Splendid Concert this evening by Mr. and Mrs. Geo. Henschel. He is a glorious singer. the best I ever heard, methinks. He sang "Why do the nations rage?" from The Messiah. and The Two Grenadiers.

She sang, among other things three Songs from Water-Babies- "Clear and Cool." "When all the world was young, lad." and "I once had a pretty little doll, dears." all set to music by Mr. Henschel-

Tuesday May 1. beautiful weather. 24 years old, poor I. Letter from Jo Cass. Classes as usual. Miss Wardlaw gave me an exquisite little bouquet. I had "Bible Forget me nots" from Miss Emerson and Annie Bushnell. The birth-day dinner was a great success. Miss Freeman was delightful and enjoyed it all very much- The decorations of the dishes were truly remarkable- may poles abounded. See Menu. There was a May pole at Stone Hall to which I was invited, but of course could not go. 'Tis late, and I am sleepy-

Wednesday Fair. Received a large, very large, letter from home. The united efforts, greetings of the whole family- letter from Mary enclosing a pretty handkerchief- letter from Uncle George, and birthday card, from Lizzie DeWitt, I judge from the writing- also, a note from Miss Brown informing me of my election to the presidency of the Saturday Night Club. I took what was left of my cake to the College and there dispensed it to numerous friends. Mrs. Jackson, wife of the sculptor of The Reading Girl, was at W.C. this P.M. with many friends, and was recepted by teachers at three o'clock- refresh-ments at four. M. Marsh went. Monday. Aug. 13. Started for Chautauqua 5:58 A.M., Pater and Annie coming with me to the depot. Arrived in safety, were met, I in company with two Ill. school ma'ams who came down from Brocton on the same train - met, I say, by a man who induced us to come up to 97 Simpson Av. to look at some rooms - Miss Parmenter and Miss Sanborn stayed there, after some looking around, in an attic, at 75 cents a day. I found a place at No. 9 Auditorium, at 1.00 a day - think I shall like it - Met Mr. Hulbert at the Amphitheatre - went to Genl. Office - bought a bottle of ink. Attended Kingsleigh-ly Normal class by Dr. Worden, C.L.S.C. Round-Table, Dr. Vincent's Question Drawer, and Prof. Richard's last lecture, which was on Light and Sun, very simple and beautifully illustrated.

Tuesday. Cool, but pleasant. Met Mrs. Vincent + Mrs. Hulbert. Dr. Hurlbut's Normal Class at 8. Devotional Hour at 9. Registered at Cong. House. Normal Class Review. 10:15 - [illegible]

F[illegible] -nite, Miss Ayres of Gloversville, N.Y. Alumni Meeting 1:45 - went down to the Point &c. until 4:00, when I went to Dr. Worden's Normal class. Took a walk with Miss Borland and Mrs. Randolph. In the evening went down to the Point with Miss Borland. Wrote short letter home in A.M. Early to bed. Met Miss Parmenter and Miss Sanborn, the Illinois school maams, at the Amp. just before Dr. Worden's Normal.

Wednesday. Warmer - especially in middle of day. Attended the two Normals - Devotional Hour - Cong. Prayer Meeting, led by R. A. Burnell, who talked about Christians representing Christ - and Geo. H. Vibbert's Lecture on Public Opinion and Prohibition. Letter from Pater, enclosing one from Miss Kendall. Carrie Schaibly arrived alone on the noon train - called on the Hulberts and Mrs. Vincent for a few minutes. Mr & Mrs. Randolph, Miss Ayres and Mrs. Schorlemmer left today. Seven new people arrived - gentleman & wife, young gentleman, & three young ladies besides Carrie Schaibly.

Thursday? [illegible] in A.M. - Clear + [illegible] in P.M. - Normal [illegible] 1:45 [illegible] Alumni [illegible] - [illegible] Hur[illegible] [illegible]

[illegible] Met Miss Whiting & her sister -

Sunday Aug. 19

Sunday School in Amphitheatre led by R. S. Holmes instead of Dr. Worden, who was called away to preach - Dr. Vincent's Baccalaureate Sermon at 11 was on Jas. 4:3. "Ye ask and receive not, because ye ask amiss, that ye may consume it upon your lust." I did not stay through it, but went down by the lake where it was cool, and read the Bible some - Succeeded in getting in to Dr. Vincent's Christian Ethics at 4 - though I am three yrs. beyond the limiting age - which fact I [illegible] confessed - He talked well about Card Playing &c - The evening service was the crown of the day and the week - The music was beautiful, to begin with - especially a solo "Come unto me, all ye that labor" &c Dr. Abbott's sermon was grand and beautiful - from Rom. 1:16 & 17. "For I am not ashamed of the gospel of Christ &c. Met Mrs Will Cary, Mrs Sam'l. Cary, Mrs Rollin Cary & Mr. Rollin Cary at Palestine in the P.M. Some of them got on to the grounds today - influence of L.S. and M.S. R.R. Sat by Miss Parmenter in the evening, Miss Borland and I walked home with her and Miss Sanborn, making some progress in acquaintance, and an arrangement to go in bathing Monday morning - They leave Tuesday or Wednesday.

Have been sleeping in the attic for two nights - am to have my room again today -

Sunday Sept. 16. A good day - Flower Sunday - Dr. Lyman Abbott preached on the usual text, and supplemented it in the evening by a talk from John 13:34 "A new commandment I give unto you, that ye love one another; as I have loved you, that ye also love one another."
Saw Virginia Smith and Miss Eastman.
Jo Case and Miss Emerson were here in the afternoon. Miss Emerson was in my room most of the afternoon - Five o'clock meeting was led by Miss Young, Pres. of the Senior Class.
Wrote letter home after supper. Lottie was here a short time after evening service whereunto I went with Miss Emerson.

Monday Sept. 17. Went to Boston with Lottie on 8:01 train to buy her dress, shoes &c. I bought shoes also and a work basket. Lunched at Doolittle's. came out on 2:15 train with many bundles.
Rain in the evening - none while we were in town. Marked some things and got washing ready. Letter from Pater.

Tuesday. Clear and warm - Classes. No lecture, however, but preliminary remarks. Called at Waban Cottage in P.M. but did not see Mrs. Sawyer. Moonlight Row of F. F. F. F. F.'s after silent time - exceedingly enjoyable. Letter from Annie. Wrote to Annie - Spoke to Dr. Jones about giving fruit to girls -

Wednesday Sept. 19 Beautiful weather. Taught three classes - read Tribune & looked over Advertiser. Teachers' Prayer Meeting in evening. Volunteered to take a Bible Class. Walked to Simpson Cottage after Jessie Reid with Miss

Kendall and Minnie Wiggin - Looked over multitudes of Schedules to try to arrange a Chemistry division. Late in going to bed - Sleepy and tired. Miss Kendall was absent from dinner until we were nearly through -

Thursday Sept. 20 Classes in A.M. Went to walk with Jessie Reid in P.M. Our object, unattained, being fringed gentians - I became lost and came back through Natick reaching W.C. just in time for dinner - Jessie waited for me, was late and had no dinner, except through Miss Chapin's charity and mine - Prayer meeting was led by Miss Lord - Subj. "Thinking upon God".

Friday Went to village in A.M. to buy Postal Notes and take my shoe to the cobbler - Sent .75 to Dr. Worden for membership in the Bible Correspondence School, and $1.00 to Chas. I believe the Bible to be the Book of God's promise - His Covenant or Testament - Not that I believe that any particular books were written by any particular authors - nor that I believe in an particular theory of inspiration. We do not know how the mind of God worked on the minds

of the prophets -
I believe that this Book is God's
promise because we are already
living in its fulfillment - we
have begun to enter upon the
inheritance - I can not doubt
that the guideboard is trustwor-
-thy if I have followed its direction
& come to where I can see the city -
The promise of dominion over
nature; of universal educa-
-tion; just government, of the peo-
-ple; peaceful industry; - of
forgiveness of sins, - victory over
sorrow & over death, - transfor-
-mation of character."
We met Dr. Abbott for a little
while in the Browning Room af-
-ter the lecture -

Friday No Bible lesson to study or
Mar. 13 teach, as Dr. Abbott met all
the Sophomore sections to talk about
the Book of Judges - He gave prin-
-ciples for the study of the Old Test-

-ament - 1. Remember what it is for - "profitable for doctrine, for reproof, for correction, for instruction in righteousness." - 2. The narration is colorless - we are left to exercise our own moral discrimination. 3. It recounts the childhood of the world - childhood of good and of evil - 4. It deals especially with communal, social, national problems - the N.T. with individual -

Rev. Mr. Tucker, the "Deacon" of the Christian Union, interviewed me for an hour or so, about Dr. Abbott's lectures and sermons. In the evening I went to Stone Hall to see Ada Underwood. Then to see Anna Rich. Party in No. 102 from 9 to 10. without carnal refreshments -

Letter from Annie - A beautiful warm spring day - Went to walk in A.M. - took a nap in P.M. - went to Bible Class in the evening -
I will put in here a little about that meeting in the Warren Av. Church yesterday - Mr. Gray spoke of the need of sincerity of conduct in the churches in their corporate capacity - examined the charge made against them by the world of insincerity on the grounds of selfishness worldliness and faithlessness - spoke of a prominent Pres. church - wh. gave, one year - 4 cents per capita for For. Missions, 6 cents per capita for Home Missions -

$8 per capita for their own congrega-
-tional purposes - In connection
with worldliness he said that church-
-es now in many cases made their
object and aim, social rather than
religious - spoke of dancing &c -
Dr. Webb was glad that a young man
like Mr. Gray had said those things -
if he had said them people would
have thought - The Dr. is getting into
the autumn of life, losing his warm
sympathy with the young - His spe-
-cial point was - the need of a new
& fuller sense of personal relation
and obligation - to God -
Dr. Gordon spoke of Cotton Mather's work
in Boston - his prayer for his people
individually - his communion with
God - three criticisms made upon him -
1. his observance of the Sabbath Mosaic
rather than Christian. 2. his bad
taste in rebuking sin - 3. his super-
-stition about witchcraft.
then of Whitfield's preaching in Boston

the need that ministers preach the gospel - to save souls - not sermonize. He spoke of the multitudes in Boston to whom the gospel is not preached - said something like this - "Brethren, I feel very strongly on this point - it is something that I can not get away from - If we can not get the people into the churches to hear the gospel, we must carry the gospel to them - I must do something - and I ought to tell you, brethren, that you need not be surprised if, before the year is out, you hear of me preaching with the Salvation Army."

He spoke of the horsecar conductors who have not a Sunday off the year around. How can they be Christians?

Saturday May 30 Classes - did not know much, nor did I. Brushed up room - cleaned Bunsen Burners - Went to Lecture by Mr. Edward Atkinson "How the poor grow richer, + the rich poorer, under com-petition." Rain - Sent lace to Ethel -

Some of Mr. Atkinson's statistics: The aggre-gate wealth of this country is $—— - Setting aside a small portion to maintain the capi-tal + another small portion for luxurious con-sumption, this amounts to about 45 cents a day for each person. To give each 5 cents more per day, the whole must be increased in the value of all the textile [illegible] + all the wheat crop. Massachusetts is the richest + most prosperous

community of its size in the world. yet here, the entire property, including buildings, endowments of institutions, everything, would maintain the population without labor, only about 3 yrs. at the end of that time they would come to starvation. The present complaint is not from those where work is continuous, they are better off now than ever before. Those whose work is not continuous do not exceed 5%. In this country, the only one where labor is really free, the means of subsistence is steadily gaining on the population.

Showing of different Industries — 1. Standard Cotton Sheeting, since 1840. Aggregate product + value of it, has steadily increased. also wages + worth of wages in means of subsistence. number of hrs. labor lessened. share of owner in profit has fallen from 13% to 4% of product. The laborer receives a constantly increasing share of a constantly increasing product. 2. Same in Pig Iron

The Census classifies under 4 heads — 1. Farmers + Farm laborers. 2. Professional + Personal servants 3. Traders. 4. Mechanics, manufacturers + Miners — Operatives, as distinguished from individual workmen. are employed in collective factory work,

are 100 out of every 1000 - Individual Mechan-
-ics. 407 " " " " - Mental & administ-
-trative, 60 " " " " -
One is justified for having more than the aver-
-age share if his labor increases the aggregate
more than he takes from it - Vanderbilt was a
great communist, by making transportation
cheap he greatly increased the aggregate -
Half the struggle of life is for food - Clothing, $\frac{1}{3}$
as much -
The pound of bread wh. costs 5 cents - costs 3 cents
for raising, gathering, grinding, handling, moving -
2 cents for distribution - The man who keeps the
little bakeshop does not grow rich, either -
Competition leads to cooperation in spite of self-
-ishness -
Wool, Pig Iron, & Silver are the 3 rulers of this country -
We protect our sheep from competition with the pau-
-per sheep of Europe, but do not have gumption
enough to muzzle our own dogs.
Of food - Meat costs most - Dairy products next,
allowing $\frac{1}{2}$ pint milk & $\frac{1}{2}$ ounce butter per day - & 1 egg
a scrap of cheese
every 2 days - Sugar & syrup cost as much as bread -
Drink more than bread -

School year 1892–3 –

Sep. 29. Started from home 12.17 P.M. with [illegible] ticket and checked for Washington D.C. The [illegible] boys had all gone to the County Fair, so I did not see them to say good-by. Uncle [illegible] went to Cleveland on same train. Train was late, and we had just time to find my other train in Cleveland, 1.40 on the Pennsylvania R.R. Took sleeper at Pittsburgh at 6.10 for Washington. [illegible] came from Pittsburgh.

Sep. 30, Friday. Washington about 8 A.M. A beautiful morning! Had baggage re-checked at station, then went to [illegible] to leave packages & [illegible] for tonight. Then [illegible] & I ate breakfast [illegible] lunch [illegible] and went through the Botanical Gardens to the Capitol, went about there, then to Nat. Museum where we met Miss Morris & Mr. [illegible]. Very tired – I went to [illegible] for my [illegible], had tea & toast at station & sat there all the afternoon, and [illegible]. Miss [illegible] & [illegible] came into station [illegible] were there, on their way to Hampton. On the boat I found Miss [illegible] we had [illegible] together. I had supper on the boat, as [illegible] found [illegible] Brown, of last year's [illegible] class, [illegible] in the [illegible].

Oct. 1 Saturday. [illegible] at [illegible] and [illegible] A.M. Miss [illegible], Miss [illegible], Miss [illegible], Mr [illegible], Mr [illegible] [illegible] [illegible] [illegible] [illegible] [illegible].

Breakfast at 6, [illegible]. Miss [illegible] not [illegible], [illegible] [illegible] [illegible] from [illegible] in A.M. [illegible] [illegible] [illegible] [illegible] [illegible]. [illegible] [illegible] [illegible] [illegible] [illegible] was carried to [illegible] by some [illegible]. Went to bed at 8. [illegible] Miss [illegible] [illegible] [illegible].

Oct. 2. Sunday. [illegible]. [illegible] [illegible]. Went to [illegible] [illegible], [illegible] [illegible] to the [illegible] [illegible] [illegible]. [illegible] [illegible] [illegible]. [illegible] [illegible] P.M. Miss [illegible] came in, also Mrs Turner and the children. Wrote letter home. Read Miss [illegible] [illegible] [illegible]. Went to [illegible] after supper [illegible]. Bed about 9.

Oct. 3 Monday. [illegible] [illegible] A.M. [illegible] [illegible] [illegible]. Miss [illegible] did not [illegible] [illegible], [illegible] [illegible] night, [illegible] 7.30. Meeting with Mr. [illegible] [illegible] [illegible] [illegible] at 10. [illegible] Mr [illegible], Miss [illegible] [illegible] [illegible] the [illegible]. [illegible] Miss [illegible] after dinner, [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] Mr [illegible]. [illegible] [illegible] to the [illegible] [illegible] [illegible] [illegible], with Miss [illegible] [illegible] [illegible] [illegible] [illegible]. Back at 9, and [illegible] Miss [illegible] in [illegible], [illegible] [illegible] [illegible] [illegible].

Oct. 4. Tuesday. [illegible] [illegible] meet at [illegible] [illegible] [illegible] I [illegible] [illegible] [illegible] in the morning [illegible] [illegible] [illegible] the [illegible] [illegible] [illegible] [illegible] in P.M. to [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] together this evening, as there [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] letters to [illegible] [illegible] [illegible] [illegible]

Oct. 5. Wednesday. Cool, [illegible] [illegible] [illegible] [illegible] Letter from [illegible] + Middle Rifle [illegible] at 11:20. a delightful class only 11 members [illegible] at present. [illegible] to get ready for [illegible] [illegible] in afternoon. [illegible] then [illegible] + [illegible] in evening.

Saturday July 7 — Cloudy weather, hot morning and pleasant in P.M.

Took the [illegible] line this morning & entered at 63rd St. near Midway Entrance— Bought bananas & rolls outside. Aft[er] went by myself in A.M. and met [illegible] on the Wooded Island at 11:30— We all went to the Street in Cairo & Miss [illegible] [illegible]

for our benefit as well as theirs.
Found Harriet Harward behind
one of the counters - her sister be-
-longed to the next one.
Saw beautiful things in the Japanese
& Turkish Bazaars - & were deeply in-
-terested in the people, especially
a Hindu fr. Bombay, who was mak-
-ing pictures with his fingernails.
Left Midway about 4, and went to
Art Gallery & Lunch on Wooded
Island, and thence to a seat in
Choral Building - Met Jessie
Munger & Hester Pollock - and Mrs
Haines - Boys met Ed McLean -
Supper at French Bakery - presented
our French girl with a souvenir

Hush, my dear, lie still and slumber,
Holy angels guard thy bed!
Heavenly blessings without number,
Gently falling on thy head.
How much better thou'rt attended,
Than the Son of God could be,
When from heaven He descended,
And became a child like thee.
Soft and easy is thy cradle,
Coarse and hard thy Saviour lay,
When His birthplace was a stable,
And His softest bed was hay.
Oh, to tell the wondrous story,
How His foes abused their King,
How they killed the Lord of glory,
Makes me angry while I sing.
Hush, my child, I did not chide thee,
Though my song might sound too hard.
'Tis thy mother sits beside thee,
And her arms shall be thy guard.
Mayst thou learn to know and fear Him,
Love and serve Him all thy days;
Then to dwell for ever near Him,
Tell His love and sing His praise.

Second Corinthians -

Written in Macedonia, in A.D. 57, in journey. Paul has sent Titus to Corinth soon after writing the first epistle, to attend the collection, & to see what effect his letter had had upon the church. Titus was to meet Paul in Troas, but as he did not arrive, Paul went on to Philippi. Titus soon came bringing news that the majority of the church had repented & the wicked member had been punished, but that there were some, who, influenced by Judaizing teachers from Jerusalem, were doing all they could to hurt Paul's influence in the church - Titus was sent back with this letter, in wh. Paul rejoices over the good spirit of the church, gives instructions as to the collection, and rebukes those who are still working mischief, while he tries to maintain his authority as an apostle.

Chapters 1-9 show spirit of love and tenderness
10-12, one of stern rebuke.

Paul founded this church on his 2nd missionary journey. Corinth was noted for wealth and wickedness.
This epistle written at Ephesus on 3d journey. Apollos had been preaching at Corinth with great success, but had returned to Greece. Paul writes to rebuke the church for party spirit, for neglecting to punish a very wicked member, for going to law in other heathen courts.
In answer to their inquiries, he instructs them about marriage relations, meat offered to idols, the Lord's Supper, spiritual gifts, church services, & the resurrection.
He plans to go through Macedonia & Greece on his way to Jerusalem & bids them have a collection ready for him to take to the poor Christians at Jerusalem. He had sent Timothy & Erastus to them by way of Macedonia, but sends the letter by a more direct route, so that it will reach them before the arrival of Timothy & Erastus.

Second Thessalonians-

Written at Corinth when news came that Paul's 1st epistle had been misinterpreted. The Thessalonians, thinking that Christ was about to come, were spending their time in excited talk from house to house, & were giving up work, depending on others for support. He wrote to calm the excitement & lead them to take up practical duties again.

Woonsocket, R. I. June 18 1843

Dear Nephew,

I was yesterday highly gratified by the reception of your letter of the 12th and was pleased to learn that your health is good - & you are pleasantly situated - & likewise, that that is the case with your Brothers & Sisters - Should be pleased to have you and your Mother, or either of you, make us a visit -

I hope I shall be able to visit Royalston, this fall - but tis uncertain - If I do - will endeavor to inform you of it - & shall hope to see you and your Mother there -

We are enjoying our usual health - Charles is in a dry good Store in the village & boards at home - Eleanor is keeping house in one of my Tenements -

The weather has doubtless been similar here, to what it has been with you - Although the principal part of May was cloudy & Moist - we had no great quantity of rain - but the crops generally look well - particularly - grass & grain -

Not being in any business - but cultivating a small piece of land - I know but a little about the situation of business generally, but suppose it rather dull, & money rather "hard" -

Our respects to your Mother & yourself -

Affectionately yours

J. Metcalf

Dear Nephew,

In my answer to yours of June 12th I think I said, if I should go to Royalton, this fall, I would endeavor to inform you of it previously — hoping you could make it convenient to meet me there.

I am expecting to go there this week, so as to be there next Sunday — and hope I may have the pleasure of seeing you there.

I had hoped to see your Mother there — but, was informed, by your Brother, Elias, who was here a fortnight ago today — that she and Anne, and Lucy were going to return, with him, to Maine —

Affectionately yours

Dear Nephew,

Yours of Oct. 11th was received by regular course of Mail — I had hoped to meet you at Royalston — but as I had not that pleasure — hope to see you here soon — I direct this to Northfield; although perhaps you may be a great distance from there — possibly, on the road to California I think not however — A great many are going, from all, or nearly all the civilized world — and I presume a great many of them will regret their ever leaving home for that region — Quite a number have gone from this place, & vicinity — Some young men have left good situations, for what I think will prove to be rather a Quixotic expedition I have no doubt but there is a great supply of gold there — and no doubt some will make themselves independent — but I think there are too many going — Enough of this — perhaps you are going yourself —

You wish to know my Ideas upon the subject of "Free Soil." I should probably agree with you upon the principle of free soil — but did not vote for Van Buren Electors I supposed there was no chance for his election — was sure there was no ~~chance for V Buren Electors~~ in this State — and I thought I could put more confidence in Taylor than Cass — although I have not much confidence in him, as regards that subject — I can only hope he will allow Congress to ~~Legislate~~ — without Vetoing — —

Should you receive this soon, please answer it, as I want to hear from your Mother & her family, & presume can give me later information than I have of them - have heard nothing from them since Chiah was here -

Shall probably write your Mother soon - My family send their Respects - and we all should be glad to see you here.

Affectionately yours
J. P. Metcalf

Dear Nephew,

Being anxious to hear from your Mother, as well as from yourself & family, and your Brothers & Sisters; I now address you. I wrote to your Mother, some three Months since — directed the letter to Bangor, to your care; but have heard nothing from her.

We are enjoying our usual health and situated as heretofore. Charles Metcalf boarding with us, in the ~~Am~~ Ambrotype business; and Charles Smith living in the house with us, in Market gardening business. — He has two Children — a Daughter Thirteen years old yesterday, and a Son six years old last November.

We have had a very open Winter — but little snow, and not

the usual amount of cold weather.

Had just snow enough for sleighs to run three or four days at a time, three times but the ground was bare, or principally so, the largest part of the winter.

Our Respects to yourself & all our friends.

Respectfully yours

P. Metcalf

P.S. Should be glad to see you & your family here. As also your Mother, & any, or all of her Children. Should like to know your Mother's age. If I live till the 29th of July, shall be Eighty years old. Although enjoying good health, I feel sensibly the effects of age, Bodily & Mentally. Cousin Lewis Metcalf, of Wrentham, died some Months since, Eighty six years old.

Boston October 16th 1831

Dr Brother

I thought I would divide the sheet - and let you have one half & Prescott the other and I suppose that I shall have to take a new one for Josiah. Perhaps I may tell you the same that Prescott told me in his letter that I am in kicking health. We have as much business as we can well attend to. One day last week our store got so full of Ladies that they were obliged to stand at the door till [illegible] had come out or to pass along, but perhaps I should cover over a whole sheet of such incidents it would not be interesting. Samuel I wish you would contract a habit of reading and spend your time in reading instead of trifling & play you will find it greatly to your advantage when you come to be of age. As soon as it is convenient as I observed I should like to have my Trunk sent back & you may send what you please in it. I hope for one thing you will send me one of your compositions & a good long letter. It is so dark I cannot see to write more

Your affectionate Brother

Dear Brother

I will begin a letter to you by telling you
about our business and how our Store is situated. Our Store
fronts to the west with two doors in the centre and a window on
each side. We occupy one room and a cellar under it for which
we pay 600 Dollars a year. We use the cellar for storing goods.
We have upwards of three hundred pairs of Rose Blankets in it
worth from 2 to 14 Dollars pr pair. We have about 200
Marseilles Quilts worth from 3 to 14 Dollars each, and we have
I do not how many pieces Flannels & cottons &c. &c. —
Our folks have purchased merinoes to the amount of about
35 hundred Dollars and other goods to the amount of about
20 hundred since I went to R. We have got something to do
this fall to sell all the goods we have and probably shall have
I assure you. How think you could manage waiting upon the
Ladies? I guess you would sometimes feel cross. I suppose
you would rather ~~[illegible]~~ be driving Stage horses.

Tuesday Eve. We have had a very warm day today. Mr Jacobs
the man that was fixing Mr Holdens Mill called into the Store
today. He says he has fixed Fathers Mill to set boards in the
dark. I saw Thomas J. Lee Esq today. He is doing business
for a Bank with which he is connected. I shall send the Seer
tout by Joseph if he has room to take it and if he has not I
shall send the first opportunity. I wish you would say to Prescott
that I should think that as many papers as 30 have been sent by some other
conveyance than the Mail. It would leave but 74 by Mail. The
Year is out the 31st of this month. I wish you would make an
effort to write me.

Dear Sister;

I have been thinking of writing to you, a long time but it has become quite an under-taking for me to write, even a short letter. Being anxious to hear from you, however, I have commenced writing, hoping you will answer it soon. I have but little to say, except that we are all well, and situated the same as heretofore

Had a letter from Caleb, not long since. His Mother lives with Isaac near by. Josiah called here last fall. Has made Rehaboth his home, generally, since he returned from sea

Wrote to Sister Mary, early in the winter, but have received no answer. We have had a very irregular winter. The earth now perfectly bare of snow.

Mr. Hunt, Brother Enoch's son in law, is on the point of Marrying again, Caleb thinks, to a very likely Woman

Our Love to your self and family, by which I mean all your Children.

Affectionately yours.
